Subject: RE: AER 2023 Annual Benchmarking Report for transmission - draft AER benchmarking report for consultation [SEC=OFFICIAL]
Date: Monday, 9 October 2023 9:35:22 AM

Claire

AusNet has reviewed the report and has no concerns over the presentation of its data. Overall, the Report provides an excellent summary of outcomes, strengths and weaknesses of transmission benchmarking, stakeholder concerns and future issues of further study. We do not have any concerns with the AER removing Appendix B and consolidating some further explanation into the body of the Report with references to the support information.

Regards

Tom Hallam
