Dear Ms Savage

Evoenergy's revised regulatory proposal for the 2024–29 regulatory control period

I am pleased to submit Evoenergy's revised regulatory proposal, including the revised proposed Tariff Structure Statement (TSS), for the regulatory period from 1 July 2024 to 30 June 2029.

In developing our revised proposal and revised TSS, we have undertaken further consumer and stakeholder engagement and taken into consideration current data and information to reflect the fast pace of the energy transition in the ACT.

We look forward to continuing engagement with the AER, our stakeholders, and consumers over the coming months to ensure the final decision delivers on the needs and expectations of our community during this critical transition period.

Please contact [REDACTED] General Manager Economic Regulation on [REDACTED] or via email [REDACTED] to discuss any aspect of Evoenergy's revised proposal.

Yours sincerely
