1. Executive Summary3

2. Independent Assurance Report to the directors of United Energy5

3. Detailed Findings8

1. Executive Summary

1.1 Introduction

The Australian Energy Regulator (the "AER") published the Electricity Distribution Ring-Fencing Guideline on 30 November 2016 under the National Electricity Rules (the "NER") with amendments made on 17 October 2017 and 3 November 2021 (the "Guideline"). The Guideline requires functional separation of regulated and competitive business activities to promote competition in the provision of contestable electricity services.

Under clause 6.2.1c of the Guideline, Deloitte has been engaged per the engagement letter between United Energy Distribution Pty Limited ("United Energy") and Deloitte dated 19 January 2023 as the qualified independent authority to provide reasonable assurance that United Energy's Ring-Fencing Annual Compliance Report has been prepared in compliance with 6.2.1a of the Guideline as evaluated against 6.2.1b of the Guideline, in all material respects, for the period from 1 January 2022 to 31 December 2022.

1.2 Summary of Findings

The following table summarises observations and recommendations against the Obligations where a breach was identified. The rating of each Obligation has been applied in accordance with *Section 1.3*.

No.	Guidance Obligation	Results of Testing	Recommendations	Rating	Material Breach
1	4.2.3	<p>United Energy has communicated a breach of the ring-fencing guidelines clause 4.2.3 on 21 December 2022. This breach has been disclosed in chapter 5.2 table 3 of the ring-fencing compliance report. We have performed the following procedures on this breach of the ring-fencing guidelines:</p> <ol style="list-style-type: none"> 1. We have verified that a written notification of the breach has been made with the AER within 15 business days after identifying the breach on the 2nd December 2022. 2. We have obtained the source documentation in relation to the breach and confirmed the factual accuracy of the disclosure in the Ring-Fencing compliance report. 3. We have obtained evidence of the targeted information sessions which reenforced the requirements as included in the Ring-Fencing guidelines. <p>Based on the procedures performed we have concluded that the company has applied proper measures following the Ring-Fencing breach.</p>	None noted, proper mitigation measures have been implemented by the company to decrease the likelihood of future breaches.	No Exception	No

1.3 Rating Applied

The ratings applied to the results of our testing are defined below based on Deloitte's interpretation of the Guideline. The evaluation of the results of our tests as they relate to the Obligations is based on applying our professional judgement and considering the available facts and circumstances.

No Exception	Requirements of the Obligation have been met with no or only minor improvement opportunities. Any findings noted are considered minor and require routine efforts to correct in the normal course of business.
Exception	The requirements of the Obligation have not been fully met. Findings noted require remedial action.

2 Independent Assurance Report to the directors of United Energy

Opinion

We have undertaken a reasonable assurance engagement on whether United Energy Distribution Pty Limited (“United Energy”) Ring-Fencing Compliance Report has been prepared in compliance with 6.2.1a of the Ring-Fencing Guideline – Electricity Distribution (the “Guideline”) as evaluated against 6.2.1b of the Guideline in all material respects for the period from 1 January 2022 to 31 December 2022. The Ring-Fencing Compliance Report will accompany our report, for the purpose of reporting to the Australian Energy Regulator (“AER”).

In our opinion, United Energy’s Ring-Fencing Compliance Report has been prepared in compliance with 6.2.1a of the Guideline as evaluated against 6.2.1b of the Guideline in all material respects for the period from 1 January 2022 to 31 December 2022.

Basis for Opinion

We conducted our engagement in accordance with Standard on Assurance Engagements ASAE 3100 *Compliance Engagements* (“ASAE 3100”) issued by the Auditing and Assurance Standards Board. We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter – Cost Allocation Methodology regulatory period assessed

Without modifying our opinion, we draw attention to the regulatory period covered under Section 3.2.2 of the ring-fencing guideline within this report being 1 January 2022 to 30 June 2022, which is different to the compliance period of 1 January 2022 to 31 December 2022. Compliance with the Cost Allocation Method for the remaining regulatory period from 1 July 2022 – 31 December 2022 will be covered under the Regulatory Information Notice (RIN) reporting for the 1 July 2022 to 30 June 2023 regulatory period. This approach is in line with Ring-Fencing guideline 6.2.1 (d) which allows for a difference between the regulatory information notice period and the Ring-Fencing compliance period regarding the information in Section 3.2.2.

Responsibilities of management of United Energy

United Energy management are responsible for:

- a) Preparing the Ring-Fencing Compliance Report that includes the outcome of the evaluation of the compliance activity against the Guideline, which accompanies this independent assurance report;
- b) Identifying risks that threaten the 6.2.1b of the Guideline identified above being met;
- c) Identifying suitable compliance requirements in the Guideline as required by the AER; and
- d) Identifying, designing and implementing controls to enable the requirements of the Guideline to be met and to monitor ongoing compliance.

Our Independence and Quality Control

We have complied with the independence and other relevant ethical requirements relating to assurance engagements, and apply Auditing Standard ASQM 1 *Quality Management for Firms that Perform Audits or Reviews of Financial Reports and Other Financial Information, or Other Assurance or Related Services Engagements* in undertaking this assurance engagement.

Assurance Practitioner's Responsibilities

Our responsibility is to express an opinion on whether United Energy's Ring-Fencing Compliance Report has been prepared in compliance with 6.2.1a of the Guideline as evaluated against 6.2.1b of the Guideline in all material respects for the period from 1 January 2022 to 31 December 2022. ASAE 3100 requires that we plan and perform our procedures to obtain reasonable assurance about whether United Energy's Ring-Fencing Compliance Report has been prepared in compliance with 6.2.1a of the Guideline as evaluated against 6.2.1b of the Guideline in all material respects for the period from 1 January 2022 to 31 December 2022.

An assurance engagement to report on the United Energy's Ring-Fencing Compliance Report involves performing procedures to obtain evidence about the compliance activity and controls implemented to meet the requirements of the Guideline. The procedures selected depend on our judgement, including the identification and assessment of risks of material misstatement in the Ring-Fencing Compliance Report, as evaluated against 6.2.1b of the Guideline.

Our procedures included, but were not limited to:

- Inquiring with United Energy personnel about controls are in place to allow United Energy to comply with the Obligations;
- On a sample basis, observing the control being performed, and/or inspecting documentation to evidence the design, implementation and effectiveness of the controls;
- Inquiring with management whether they are compliant with the Obligations and corroborating our inquiry with the results of our procedures;
- Evaluating the content of the Ring-Fencing Compliance Report prepared by management, to determine whether it has been prepared, in all material respects, in accordance with the Guideline.

Inherent Limitations

Because of the inherent limitations of an assurance engagement, together with the internal control structure it is possible that fraud, error, or exception with compliance requirements may occur and not be detected.

A reasonable assurance engagement for the period from 1 January 2022 to 31 December 2022 does not provide assurance on whether compliance with the Guideline will continue in the future.

Restricted Use

This report has been prepared for use by United Energy for the purpose of meeting the reporting requirements to the AER. We disclaim any assumption of responsibility for any reliance on this report to any person other than United Energy, or for any purpose other than that for which it was prepared. However, we understand that a copy of this report has been requested by AER. We agree that a copy of this report may be provided to AER for their information in connection with this purpose but only on the basis that we accept no duty, responsibility or liability to any party, other than you, in connection with this report or this engagement.

It is our understanding that the AER may publish a copy of this report on their website. We do not accept responsibility for the electronic presentation of this report on the AER's website. The security and controls over information on the web site is not evaluated or addressed by the independent assurance practitioner. The examination of the controls over the electronic presentation of the Ring-fencing Compliance Report on the AER's web site is beyond the scope of this engagement.

3 Detailed Findings

The descriptions of the tests of compliance that were performed, findings relating to the tests of compliance or particular aspects of the engagement, our recommendations and conclusion of whether there has been a breach of the requirements of the Guideline are described below.

The rating of each Obligation has been applied in accordance with *Section 1.3*.

No.	Category	Ref.	Guideline Obligation	Key Controls and Testing	Results of Testing	Recommendation	Rating
1.	Legal separation	3.1 (a)	A DNSP must be a legal entity.	<p>Discussions held with:</p> <ul style="list-style-type: none"> Regulatory Analyst <p>Key Controls:</p> <ul style="list-style-type: none"> United Energy are separate legal entities with a registered Australian Business Number (ABN) which is distinct from its affiliated entities that provide "other services" <p>Information Obtained:</p> <ul style="list-style-type: none"> ASIC ABN Search Distribution Network service provider Licence <p>Test Performed:</p> <ul style="list-style-type: none"> We performed a search of the ASIC register for United Energy Distribution Pty Limited's ABN to check that they are separate legal entities We cross checked the registered ABN against the Distribution Network Services Provider Licence. 	Based on the testing performed we have not identified any matters of exception against the obligation.	None noted.	No Exception
2.	Legal separation	3.1 (b)	A DNSP may provide distribution services and transmission services but must not provide other services.	<p>Discussions held with:</p> <ul style="list-style-type: none"> Financial Controller Senior Finance Business Partner – Corporate and Regulatory <p>Key Controls:</p> <ul style="list-style-type: none"> A monthly review of general ledger accounts is performed by finance and an attestation is provided by the 	Based on the testing performed we have not identified any matters of exception against the obligation. 				<p>Financial Controller that no breaches in this requirement have occurred</p> <p>Other compliance measures:</p> <ul style="list-style-type: none"> A waiver was obtained in December 2020 allowing United Energy to provide "other services" by way of the provision of battery capacity to a retail partner. This waiver allows for a trial to this effect to go ahead, expiring on 30 June 2026 <p>Information Obtained:</p> <ul style="list-style-type: none"> Audited financial statements for United Energy for the year ended 31 December 2022 General ledger information recording revenue generated in the period by the DNSPs. AER approved waiver detailing other services provided to the retail partner <p>Test Performed:</p> <ul style="list-style-type: none"> We have performed a review of the nature of each revenue streams recorded in United Energy financial statements and assessed whether these are related to distribution services. For "other services" revenue generated, we assessed whether these are permissible revenue streams according to the Ring-Fencing guidelines. We tested the design and operating effectiveness by inspecting the monthly completion of the attestation on a sample basis. 			
3.	Separate accounts	3.2.1 (a)	A DNSP must establish and maintain appropriate internal accounting procedures to ensure that it can demonstrate the extent and nature of transactions between the DNSP and its affiliated entities.	<p>Discussions held with:</p> <ul style="list-style-type: none"> Financial Controller Head of Risk & Financial Control <p>Key Controls:</p> <ul style="list-style-type: none"> a separate general ledger is maintained for United Energy from its affiliates with separate GL 	Based on the testing performed we have not identified any matters of exception against the obligation.	None noted.	No Exception

No.	Category	Ref.	Guideline Obligation	Key Controls and Testing	Results of Testing	Recommendation	Rating
				<p>accounts for transaction between affiliates</p> <ul style="list-style-type: none"> A monthly review of general ledger accounts is performed by the finance group and an attestation is provided by the Financial Controller that no breaches in this requirement have occurred <p>Information Obtained:</p> <ul style="list-style-type: none"> Corporate Service agreements between United Energy and their affiliates Audited financial statements for United Energy Distribution Pty Limited for the year ended 31 December 2022 Balance sheet reconciliations and monthly attestation by Financial Controller <p>Test Performed:</p> <ul style="list-style-type: none"> We performed a process walk through to understand the key controls in place to maintain separate accounts and be able to demonstrate the extent of transactions between United Energy and its affiliates We tested the design and operating effectiveness of the monthly attestation provided by the Financial Controller We reconciled the affiliate transactions disclosure in the Compliance report to underlying accounting records to assess accuracy and challenged the completeness of these transactions. 			
4.	Cost allocation and attribution	3.2.2 (a), (b) (c)	(a) A DNSP must allocate or attribute costs to distribution services: - in a manner that is consistent with the Cost Allocation	<p>Discussions held with:</p> <ul style="list-style-type: none"> Financial Controller Senior Finance Business Partner – Corporate and Regulatory Head of Risk & Financial Control <p>Key Controls:</p>	<p>Based on the testing performed we have not identified any matters of exception against the obligation.</p> <p>Compliance with the Cost Allocation Methodology is assessed every regulatory period as part of the AER</p>	None noted.	No Exception

No.	Category	Ref.	Guideline Obligation	Key Controls and Testing	Results of Testing	Recommendation	Rating
			<p>Principles and its approved CAM, as if the Cost Allocation Principles and CAM otherwise applied to the allocation and attribution of costs between distribution services and non-distribution services.</p> <ul style="list-style-type: none"> - and must not allocate or attribute other costs to the distribution services it provides. <p>(b) A DNSP must only allocate or attribute costs to distribution services in accordance with clause 3.2.2(a), and must not allocate or attribute other costs to the distribution services it provides.</p> <p>(c) A DNSP must establish, maintain and keep records that demonstrate how it meets cost allocation and attribution Obligations.</p>	<ul style="list-style-type: none"> • Costs are allocated using approved profit centres and function codes within the ERP system (SAP) in line with the approved United Energy Cost Allocation Methodology (CAM). These are uploaded within SAP and cannot be amended unless reviewed and approved. • A quarterly review of cost attribution is performed by the finance team and an attestation is provided by the Financial Controller that this has been performed and whether any breaches have been identified. <p>Information Obtained:</p> <ul style="list-style-type: none"> • United Energy Cost Allocation Method • Quarterly Finance Controller attestation of cost attribution • Transactions with affiliates data <p>Test Performed:</p> <ul style="list-style-type: none"> • We performed a process walk through to understand the key controls in place to ensure costs are allocated accurately and in line with CAM • We obtained and reviewed the CAM, noting it addresses the allocation of costs between distribution services and non-distribution services • We tested the design and operating effectiveness by inspecting the quarterly review of the cost attribution attestation on a sample basis • Tested the balances disclosed for transactions with affiliates in the compliance report for completeness and accuracy and consistency to the audited financial statement information 	<p>Regulatory Information Notices (RINS). This was most recently conducted for 1 July 2021 - 30 June 2022 regulatory period with our conclusion submitted to AER in our report dated 31 October 2022. The compliance with the CAM for the remaining period from 1 July 2022 – 31 December 2022 will be covered under the RINS for the 1 July 2022 to 30 June 2023 regulatory period. Our procedures on the CAM per the purpose of attesting compliance with the guideline therefore is limited to the period 1 January 2022 – 30 June 2022. This approach is in line with Ring-Fencing guideline 6.2.1 (d) which allows for a difference between the regulatory information notice period and the Ring-Fencing compliance period regarding the information in Section 3.2.2.</p>		

No.	Category	Ref.	Guideline Obligation	Key Controls and Testing	Results of Testing	Recommendation	Rating
5.	Obligation not to discriminate	4.1(b) (d)	<p>(b) A DNSP must not discriminate (either directly or indirectly) between a related electricity service provider and a competitor (or potential competitor) of a related electricity service provider in connection with the provision of:</p> <p>i. direct control services by the DNSP (whether to itself or to any other legal entity); and / or</p> <p>ii. contestable electricity services by any other legal entity.</p> <p>(d) A DNSP must not discriminate (either directly or indirectly) between any two legal entities, in connection with the supply of contestable electricity services by those legal entities, on the basis of the use by one or both of those legal entities of assets owned, operated or otherwise controlled (in whole or in part) by the DNSP.</p>	<p>Discussions held with:</p> <ul style="list-style-type: none"> Regulatory Analyst Team Leader Engineering and Consulting Manager Customer Requests <p>Key Controls:</p> <ul style="list-style-type: none"> Mandatory online training on ring-fencing requirements is undertaken by new starters (whether office or field- based employees) upon commencement at the company as part of induction Mandatory online training for all office- based staff on the ring-fencing requirements is performed every three years Targeted ring-fencing training is performed within the business where there is a material change in the ring-fencing guideline, significant staff turnover, or upon the identification of guideline breaches Approval of project costs and scheduling so that contestable services are not prioritised over direct control services An annual review of ring-fencing obligations by each responsible manager and General Manager and declaration of any breaches/no breaches occurring in relevant area of the business. This is then signed off by the relevant General Manager <p>Information Obtained:</p> <ul style="list-style-type: none"> Training materials Listing of customer projects Annual declaration by General Managers <p>Test Performed:</p> <ul style="list-style-type: none"> We reviewed the training material and noted that the training included the requirement not to discriminate 	Based on the testing performed we have not identified any matters of exception against the obligation.	None noted.	No Exception

No.	Category	Ref.	Guideline Obligation	Key Controls and Testing	Results of Testing	Recommendation	Rating
				<ul style="list-style-type: none"> We performed sample testing of training attendance register to assess whether it was accurate We selected a sample of employees that did not attend training and inspected the reason for non-completion. We tested the operating effectiveness of the control over the project approvals We have obtained and reviewed each of the General Manager annual compliance declarations 			
6.	Offices, staff, branding and promotions	4.2.1(a)	A DNSP must use offices that are separate from any offices from which a related electricity service provider provides contestable electricity services.	<p>Discussions held with:</p> <ul style="list-style-type: none"> Senior Facilities Specialist <p>Key Controls:</p> <ul style="list-style-type: none"> United Energy have a separate office in Pinewood for the shared office with VPN (Market Street) Beon, ENEA and NG/E staff are physically restricted from accessing certain floors of the office through the use of the Gallagher security system (through electronic access cards and security doors) The Operations Manager Facility Management Services performs both a daily and monthly review of physical access restrictions for the United Energy building to identify any Beon, ENEA and NG/E Staff who have inappropriate access An office sharing register is maintained and reviewed by United Energy <p>Information Obtained:</p> <ul style="list-style-type: none"> Gallagher security system access listings to the United Energy office Beon employee staff listing Next Generation employee listing ENEA employee listing Staff and office sharing register 	Based on the testing performed we have not identified any matters of exception against the obligation.	None noted.	No Exception

No.	Category	Ref.	Guideline Obligation	Key Controls and Testing	Results of Testing	Recommendation	Rating
				<p>Test Performed:</p> <ul style="list-style-type: none"> We tested the design and operating effectiveness of the monthly review control of physical access of the Market Street building We tested Beon, ENEA and NG/E staff and reviewed the physical access restrictions for United Energy building within Gallagher system We reviewed the office sharing register for completeness and accuracy and sighted evidence of the annual review performed in the period. 			
7.	Staff sharing	4.2.2(a)	<p>A DNSP must ensure that its staff involved in the provision or marketing of direct control services are not also involved in the provision or marketing of contestable electricity services by a related electricity service provider.</p>	<p>Discussions held with:</p> <ul style="list-style-type: none"> Regulatory Analyst <p>Key Control:</p> <ul style="list-style-type: none"> A quarterly review is performed by the Regulations team for any changes to job description or new roles to ensure that any shared staff are identified, and that shared staff are not in breach of the ring-fencing requirements All office- based staff complete a mandatory online ring- fencing training; new employees complete an in- person (where possible) corporate induction course that includes an overview on ring-fencing, as well as online induction modules of which one includes ring-fencing training. These courses cover the requirement for staff to not provide or market contestable electricity service by a related electricity service provider. The online training is comprehensively reviewed when there is a material change to the ring-fencing guideline, or there is a need to modify the training to target a business specific ring-fencing concern. 	Based on the testing performed we have not identified any matters of exception against the obligation.	None noted.	No Exception

No.	Category	Ref.	Guideline Obligation	Key Controls and Testing	Results of Testing	Recommendation	Rating
				<p>Information Obtained:</p> <ul style="list-style-type: none"> Staff and office sharing register Sample of employee contracts Affiliate employee listings <p>Test Performed:</p> <ul style="list-style-type: none"> We tested the design and operating effectiveness of the review of the staff sharing arrangements We tested a sample of staff to review their role description in order to assess whether they are involved in provision of direct control services and contestable electricity services and if so that appropriate safeguards are in place We reviewed the training material and noted that the training included the requirement not to discriminate We performed sample testing of training attendance register to assess whether it was accurate We tested a sample of employees that did not attend training to validate the reason. Testing of affiliated entity staff that are shared to ensure they are included in the staff sharing register 			
8.	Staff sharing	4.2.2(c)	<p>The remuneration, incentives and other benefits (financial or otherwise) a DNSP provides to a member of its staff must not give the member of staff an incentive to act in manner that is contrary to the DNSP's obligations under this Guideline.</p>	<p>Discussions held with:</p> <ul style="list-style-type: none"> Regulatory Analyst Head of Business Performance Management Payroll Manager <p>Key Control:</p> <ul style="list-style-type: none"> On an annual basis the Head of Business Performance Management reviews the remuneration, incentives and other benefits of staff working for United Energy to ensure that these do not incentivise them to breach the ring-fencing requirements <p>Information obtained:</p>	Based on the testing performed we have not identified any matters of exception against the obligation.
