

Attachment 12.3

Confidentiality Claim 2025-30

31 January 2024

OVERVIEW

Clause 6.8.2(c)(6) of the National Electricity Rules (NER) requires that Energex must identify the parts of its regulatory proposal that are confidential and should be suppressed from publication.

This document provides the relevant details of:

- each piece of information Energex claims is confidential (Section 1: Documentation and Section 2: Excel Models), and
- the proportion of Energex's regulatory proposal that includes confidential information (Section 3)

in accordance with the Australian Energy Regulator's *Distribution Confidentiality Guideline*.

1. Confidential information: Documentation

Document containing the confidential information	Page and paragraph number	Description of the confidential information	Topic the confidential information relates to	Identify the recognised confidentiality category that the confidential information falls within	Provide a brief explanation of why the confidential information falls into the selected category	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit	No of pages containing confidential information / total no. of pages
Section 5.5 - Augex								
Energex – 5.5.02 – Project Approval Report New Bells Creek Zone Substation	Page 50, Table 6, Option 6 Page 51, Table 7, Option 6 Page 51, Table 9	Commercially sensitive financial information	Augmentation Non-network option	Market sensitive cost inputs	Cost information is from a non-network provider, which would reveal their prices and offer for our network limitation.	The market would price future offers similarly. Furthermore, publishing their offers may influence providers to be less inclined to offer in the future.	Disclosure could result in higher non-network option costs, as well as less chance of non-network offers for our RIT-D process.	3
Section 5.8 – ICT Expenditure								
Energex - 5.8.01 - Non-network ICT Plan – January 2024 - Confidential	Page 5, Paragraph 5, Dot Point 2	Cyber Security	Non-network ICT	Information affecting the security of the network	This information could provide details of Energy Queensland’s cyber security strategy	Disclosure could provide potential threat actors with additional information which could be utilised in cyber-attacks against Energy Queensland.	The compromise of core operational technology could have a significant impact on Energy Queensland’s customers and the market.	8 / 33
	Page 7, Table 1 (row 1, benefit column)	Commercially sensitive financial information	Non-network ICT	Market sensitive cost inputs	Information relates to a specific contractual arrangement	Disclosure of information has the potential to jeopardise future investment outcomes and ability to obtain fair market prices or may affect the competitive nature of future tenders.	No public benefit would be gained from the disclosure of this information. Disclosure could result in higher prices from suppliers - increasing costs and therefore resulting in increased customer costs.	
	Page 11 and 12, Table 2 (two columns)	Infrastructure Renewal and Investment Timeframes	Non-network ICT	Market sensitive cost inputs, Other	Information relates to specific timings of investment in technology assets. The assets will be procured from the	Disclosure of information has the potential to jeopardise commercial negotiations at time of upgrades/refresh of assets. The market will price	No public benefit would be gained from the disclosure of this information. Disclosure could result in higher prices from suppliers - increasing costs and	

Document containing the confidential information	Page and paragraph number	Description of the confidential information	Topic the confidential information relates to	Identify the recognised confidentiality category that the confidential information falls within	Provide a brief explanation of why the confidential information falls into the selected category	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit	No of pages containing confidential information / total no. of pages
					market, so these timings are sensitive	according to knowledge of our submission, impacting our ability to source a commercially competitive offer.	therefore resulting in increased customer costs.	
	Page 20, Table 3 (rows 2 and 3) Page 22, Figure 13 (vertical axes) and Table 5 (rows 1 to 6)	Commercially sensitive financial information	Non-network ICT	Market sensitive cost inputs	Opex information is from procured systems and supplier prices and information related to commercial contracts, therefore costs are commercially sensitive. If totex is published, opex can be derived, which is commercially sensitive as described above.	The market will price according to knowledge of our submission, and so we will not get a commercially competitive offer. Disclosure of costs would affect our ability to obtain competitive prices in future transactions for technology assets, software and labour.	Disclosure could result in higher prices from suppliers - increasing costs and therefore resulting in increased customer costs.	
	Page 23, Table 7 and Figure 14 (vertical axes)	Commercially sensitive financial information	Non-network ICT	Market sensitive cost inputs	Information relates to commercial sensitive costs for each Business Case	Disclosure of information has the potential to jeopardise investment outcomes and ability to obtain fair market prices or may affect the competitive nature of future tenders.	Disclosure could result in higher prices from suppliers - increasing costs and therefore resulting in increased customer costs.	
	Page 33, Table 12 (column 1)	Commercially sensitive financial information	Non-network ICT	Other	The ICT business case titles have been removed from the SCS Capex model to maintain confidentiality. This	Disclosure of information has the potential to jeopardise investment outcomes and ability to obtain fair market prices or	Disclosure could result in higher prices from suppliers - increasing costs and therefore resulting in increased customer costs.	

Document containing the confidential information	Page and paragraph number	Description of the confidential information	Topic the confidential information relates to	Identify the recognised confidentiality category that the confidential information falls within	Provide a brief explanation of why the confidential information falls into the selected category	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit	No of pages containing confidential information / total no. of pages
					table provides the mapping between the ICT business cases and the SCS Capex model, which would allow the reader to identify commercially sensitive costs for each Business Case if published.	may affect the competitive nature of future tenders.		
Energex - 5.8.02 – ICT Business Case Asset and Works Management – January 2024 - Confidential	Page 4, Cost table Page 26, Table 5 Page 39, Table 18	Commercially sensitive financial information	Non-network ICT	Market sensitive cost inputs	Information relates to commercial sensitive costs.	Disclosure of information has the potential to jeopardise investment outcomes and ability to obtain fair market prices or may affect the competitive nature of future tenders.	Disclosure could result in higher prices from suppliers - increasing costs and therefore resulting in increased customer costs.	3 / 39
	Page 26, Figure 8	Investment Timeframes	Non-network ICT	Market sensitive cost inputs	Information relates to specific timings of investment in technology assets. The assets will be procured from the market, so these timings are sensitive	Disclosure of information has the potential to jeopardise commercial negotiations at time of upgrades/refresh of assets. The market will price according to knowledge of our submission, and so there is the risk we will not get a commercially competitive offer.	Disclosure could result in higher prices from suppliers - increasing costs and therefore resulting in increased customer costs	

Document containing the confidential information	Page and paragraph number	Description of the confidential information	Topic the confidential information relates to	Identify the recognised confidentiality category that the confidential information falls within	Provide a brief explanation of why the confidential information falls into the selected category	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit	No of pages containing confidential information / total no. of pages
5.8.03 – ICT Business Case Customer – January 2024	Page 3, Cost table Page 24, Table 6 Page 37, Table 18	Commercially sensitive financial information	Non-network ICT	Market sensitive cost inputs	Information relates to commercial sensitive costs	Disclosure of information has the potential to jeopardise investment outcomes and ability to obtain fair market prices or may affect the competitive nature of future tenders.	Disclosure could result in higher prices from suppliers - increasing costs and therefore resulting in increased customer costs.	4 / 38
	Page 23, Figure 9	Investment Timeframes	Non-network ICT	Market sensitive cost inputs	Information relates to specific timings of investment in technology assets. The assets will be procured from the market, so these timings are sensitive	Disclosure of information has the potential to jeopardise commercial negotiations at time of upgrades/refresh of assets. The market will price according to knowledge of our submission, and so there is a risk we will not get a commercially competitive offer.	Disclosure could result in higher prices from suppliers - increasing costs and therefore resulting in increased customer costs	
Energex - 5.8.04 - Business Case Cyber Security – January 2024 - Confidential	Page 4, Cost table Page 9, Figure 1 Page 11, Figures 3 and 4 Page 13, Figure 5 Page 15, Figure 6 and last three paragraphs Page 16, Dot points 1 to 4, 6 and 7	Information pertaining to cyber security Commercially sensitive financial information	Cyber Security	Information affecting the security of the network Market sensitive cost inputs	Information relating to current state, future state capabilities and investments which address vulnerabilities in both ICT and OT as it relates to cyber security This information could provide details of cyber security strategy and costs, which	Disclosure of information has the potential to jeopardise ICT and OT network security Disclosure of information has the potential to jeopardise investment outcomes and ability to obtain fair market prices or may affect the competitive nature of future tenders.	Disclosure could result in higher Cyber Security risks If published this information will compromise ability to maintain adequate cyber security placing the network at significant risk. If the commercially sensitive financial information is published these may impact our ability to deliver the lowest possible cost solutions.	25 / 44

Document containing the confidential information	Page and paragraph number	Description of the confidential information	Topic the confidential information relates to	Identify the recognised confidentiality category that the confidential information falls within	Provide a brief explanation of why the confidential information falls into the selected category	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit	No of pages containing confidential information / total no. of pages
	Page 17, Dot points 2 and 3 Page 19, Figure 7 and last four paragraphs Page 20, Figure 8, dot point 1 and paragraphs 1 to 3 Page 21, Figure 9 and all text Page 22, Paragraphs 2 to 5 Page 23, Figure 10 Pages 24 and 25, Table 5 Page 26, Paragraph 2, 4 and 5 Page 29, Dot points 1 to 3 Page 30, Figure 12 and paragraph 1 Page 31, Table 6 Page 34, Table 12 Pages 35 and 36, Table 13 Page 37, All dot points				could adversely impact cyber security and competitive tender processes.		Both these impacts will be detrimental to customer's interests.	

Document containing the confidential information	Page and paragraph number	Description of the confidential information	Topic the confidential information relates to	Identify the recognised confidentiality category that the confidential information falls within	Provide a brief explanation of why the confidential information falls into the selected category	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit	No of pages containing confidential information / total no. of pages

	Whole document	Highlights the criticality of the infrastructure located at this site	Critical infrastructure	Information affecting the security of the network	Redacted information, if made public, may jeopardise security of the Energex or Energex networks or our ability to effectively plan and operate the network.	Highlighting the criticality of the infrastructure located at this site and the associated security vulnerabilities leaves the business exposed to significant financial costs in terms of loss of productivity and interruption to operational activities and disruption to consumers, should physical breaches and malicious damage occur.	Should malicious damage result from the disclosing of confidential information, EQL's ability to perform core duties would be crippled for an indefinite period of time. Should high voltage power outages occur during this time, switching to restore power to unaffected areas will not be possible, leaving customers without power for longer.	
Energex - 5.9.06A - Business case Non-network Property - Oxley Depot - January	p3, table row 6 p24, Table 5 p25, Figure 3 p25, Table 7 p26, Table 8 p30, Table 10	Commercially sensitive financial information	Capital expenditure	Market sensitive cost inputs	The project will be put to tender so these estimates are commercially sensitive	The market will price according to knowledge of our submission, and so we may not get a commercially competitive offer	The consumers of Queensland will not get the most cost effective outcome as vendors will price to the budget, not competitive pressures	6/32

Document containing the confidential information	Page and paragraph number	Description of the confidential information	Topic the confidential information relates to	Identify the recognised confidentiality category that the confidential information falls within	Provide a brief explanation of why the confidential information falls into the selected category	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit	No of pages containing confidential information / total no. of pages
2024 – Confidential	p17, Table 4	Examples of other leased sites (historical and current)	Address details	Information affecting the security of the network	Redacted information, if made public, may jeopardise security of the Energex or Energex networks or our ability to effectively plan and operate the network	Highlighting a detailed list of sites leaves the business exposed, should physical breaches or malicious damage occur. In addition, the list contains historical sites which are no longer leased by the DNSP.	There is no identifiable public benefit in disclosing this information.	
Energex - 5.9.07A - Business case Non-network Property - Rocklea Stage 2 - January 2024 – Confidential	p4, Table row 6 p18, Table 5 p18, Figure 2 p19, Table 6 p20, Table 7 p23, Table 9	Commercially sensitive financial information	Capital expenditure	Market sensitive cost inputs	The project will be put to tender so these estimates are commercially sensitive	The market will price according to knowledge of our submission, and so we may not get a commercially competitive offer	The consumers of Queensland will not get the most cost effective outcome as vendors will price to the budget, not competitive pressures	5/25
Energex - 5.9.08 – Fleet Plan 2025-30 - January 2024 - Confidential	p21, Table 7	Commercially sensitive information	Capital expenditure	Market sensitive cost inputs	Information includes supplier prices and information relating to commercial contracts	Disclosure of contract prices could potentially influence the behaviour of prospective suppliers	The ability to obtain competitive pricing is key to consumer affordability	1/29
Energex - 5.9.09A - Business Case Non-Network Fleet - EWP Replacement - January 2024 - Confidential	p3, Table row 6 p7, Figure 3 p10, Table 5 p11, Table 7 p13, Table 9 p14, Table 11 p17, Table 13 p19-21, App 4	Commercially sensitive information	Capital expenditure	Market sensitive cost inputs	Information includes supplier prices and information relating to commercial contracts	Disclosure of contract prices could potentially influence the behaviour of prospective suppliers	The ability to obtain competitive pricing is key to consumer affordability	9/23

Document containing the confidential information	Page and paragraph number	Description of the confidential information	Topic the confidential information relates to	Identify the recognised confidentiality category that the confidential information falls within	Provide a brief explanation of why the confidential information falls into the selected category	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit	No of pages containing confidential information / total no. of pages
Energex - 5.9.10A - Business Case Non-Network Fleet -Crane Borer Replacement - January 2024 - Confidential	p4, Table row 1 p7, Figure 3 p9, Table 4 p10, Table 6 p12, Table 8 p15, Table 10 p17-18, App 4	Commercially sensitive information	Capital expenditure	Market sensitive cost inputs	Information includes supplier prices and information relating to commercial contracts	Disclosure of contract prices could potentially influence the behaviour of prospective suppliers	The ability to obtain competitive pricing is key to consumer affordability	7/19
Chapter 6 – Operating Expenditure								
Energex – 6.05A - Business Case Smart Meter Data Acquisition– January 2024 - Confidential	p6, dot point 3 p6, paragraph 4, 5, & 6, p6, Table 1 p13, dot point 2 p15, dot points 9 and 10 p18, paragraph 2, dot points 2 and 3 p20, dot points 8 and 9	Commercially sensitive information	Operating expenditure	Market sensitive cost inputs	We will be negotiating with a number of metering data and analytics providers for advanced data and an analytics platform.	Energex would face a detriment in negotiating costs if we were to publish our expected unit rates in the regulatory proposal. Providers would also face a detriment if they were to have their costs exposed in the regulatory proposal.	The consumers of Queensland will not get the most cost-effective outcome as vendors will price to the budget, not competitive pressures.	5/29
Chapter 8 – Annual Revenue Requirement								
Energex - 8.05 - Rate of return (averaging periods) - January 2024 - confidential	Whole document	Commercially sensitive information	Revenue	Market sensitive information	The information is confidential because it specifies the date/s when Energex expects to raise debt.	Disclosure of Energex's proposed dates on which it proposes to raise debt would potentially influence the behaviour of prospective lenders.	As the return on debt is a key input to the Rate of Return Energex receives on its assets, not receiving an efficient market rate will have a detrimental impact on the price customers will ultimately pay for the distribution of electricity.	4

2. Confidential information: Excel Models

Document containing the confidential information	Page and paragraph number	Description of the confidential information	Topic the confidential information relates to	Identify the recognised confidentiality category that the confidential information falls within	Provide a brief explanation of why the confidential information falls into the selected category	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit	No of pages containing confidential information / total no. of pages
RIN								
Energex - RIN.10 – Generator Contract Costs - January 2024 - confidential	Entire document	Commercially sensitive financial information	Network Opex	Market sensitive cost inputs	Information relates to contracts we are currently involved in for the deferral of network capex.	Disclosure of information has the potential to jeopardise investment outcomes and the ability to obtain fair market prices when these contracts come to an end and we engage with other parties to assess the capability to continue	No public benefit would be gained from the disclosure of this information	1
Section 5.8 – ICT Expenditure
