

OBJECTION:

I object to the proposal to approve this project without appropriate deep and extensive review of issues such as:

1. Effect on communities;
2. Visual amenity impact and bio-diverse landscapes;
3. Effect on wildlife etc;
4. Damage to farmland;
5. Failure to enforce regulatory standards;
6. Ensure full compliance with regulatory rules;
7. That any approval has financial penalties;
8. Ensure no financial penalties accrue to customers/consumers, leaving shareholders to bear the /a financial penalty when the application is rejected;

Please reject an approval of the HumeLink project.

--

Sincerely,

Rob Cumming
