Dear Ms Savage

Ergon Energy Network's Revised Regulatory Proposal and Tariff Structure Statement

Ergon Energy Corporation Limited (Ergon Energy Network), is pleased to submit its Revised Regulatory Proposal, Tariff Structure Statement and supporting documents for the 2025-30 regulatory control period.

We thank the Australian Energy Regulator (AER) Board and staff for their open feedback and ongoing constructive engagement on our proposals for the five-year regulatory control period. This Revised Regulatory Proposal provides additional information to enable the AER to make its final determination on our 2025-30 investment plans, which we believe are in the long-term interests of regional Queensland's electricity consumers.

I look forward to discussing our Revised Regulatory Proposal with you on 23 January 2025.

Yours sincerely
