

## Attachment 1 - Confidentiality template

Title, page and paragraph number of document containing the confidential information	Description of the confidential information	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category. If information falls within 'other' please provide further details on why the information should be treated as confidential.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
<p>ASD – AusNet – Regulatory Proposal 2026-31 - 31 Jan 2025</p> <p>p. 22 – middle dot point  p. 106 – section 6.4.9  p. 120 – section 6.6.4.6  p. 130 – Figure 6-16  p. 164 – section 6.10.3.2  p. 175 – section 6.12.1  p. 176 – Table 6-25  p. 185 – section 6.12.4.1.2 and Table 6-26  p. 218 section 6.16.3.4  p. 240 para before 7.9.1  p. 243 Table 7-11  p. 262, second para and Figure 7-16  p. 268 section 7.13</p>	<p>Customer specific information</p> <p>Provider name and information</p> <p>Commercial in confidence information about insurance arrangements</p>	<p>Capex and opex</p>	<p>Personal information</p> <p>Market sensitive cost inputs</p>	<p>Contains information on individual customers' future plans</p> <p>References our suppliers by name and contains information about their operations, which could disadvantage us in future negotiations</p> <p>This information contains details about our current insurance arrangements</p>	<p>Specific customer plans could cause detriment to their competitive position</p> <p>Which could disadvantage us in future negotiations</p> <p>Disclosure may affect our ability to put in place cost effective insurance arrangements in the future and may compromise our cover</p>	<p>The reaction only removes references to the manufacture or supplier of the equipment. The equipment type name and description are still retained in the strategy. The redaction does not impact on the significance of the information provided. Provision of this information would not be of any public benefit but may compromise AusNet Services in future dealings with the equipment manufacturer / supplier.</p>

Title, page and paragraph number of document containing the confidential information	Description of the confidential information	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category. If information falls within 'other' please provide further details on why the information should be treated as confidential.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
ASD – AusNet – Signed Directors' Statutory Declaration - 31 Jan 2025	Signature	Overall compliance	Personal information	A signature is personal to the individual	Could expose the individual to fraud	No public benefit to see a signature and could expose the individual to fraud
ASD – AusNet –Directors certification of key assumption- 31 Jan 2025	Signatures	Overall compliance	Personal information	A signature is personal to the individual	Could expose the individuals to fraud	No public benefit to see a signature and could expose the individuals to fraud
ASD – AusNet – Capitalisation Policy – 31 Jan 2025	Accounting policy info	Capex and opex	Other	This is technical accounting information	No public benefit given no change in approach compared to the current period	Technical information; approach has not changed over time so does not assist customer assessment of our proposal for 2026-31
ASD - Slattery - Control Room Refurbishment Quote -31 Jan 2025 Pg 5 Pg 9 Pg 16 Pg 17	Redaction of Security related elements which identifies areas of risk for the business	Capex	Information affecting the security of the network	The location information may affect AusNet's ability to maintain secure sites.	Provision of this information has the potential to compromise security.	AusNet is obligated to maintain the safety and security of supply. There is no public benefit from compromising security.

Title, page and paragraph number of document containing the confidential information	Description of the confidential information	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category. If information falls within 'other' please provide further details on why the information should be treated as confidential.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
ASD - IND-T - Quotation Early fault detection - 31 Jan 2025 Pg1	Cost related information	Opex	Market sensitive cost inputs	It contains cost information which may affect AusNet's ability to obtain a competitive price in future tenders for this or similar devices.	Provision of this information will compromise competitive tender processes	It is in consumers' interest to deliver this project at the lowest possible cost. Provision of cost information compromises AusNet's ability to source these services competitively.
ASD - AusNet - New ZSS Pakenham South BC – 31012025 Page 22 - Scope of capital works table	Cost related information	Capex	Market sensitive cost inputs	The cost information may affect AusNet's ability to obtain a competitive price in future infrastructure transactions such as tender processes for this project	Provision of this information will compromise competitive tender processes	It is in consumers' interest to deliver this project at the lowest possible cost. Provision of cost information compromises AusNet's ability to source these services competitively.

Title, page and paragraph number of document containing the confidential information	Description of the confidential information	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.
