

## Game Changer Leadership Workshop

6 December 2022

### **Acknowledgement of Lived Experience**

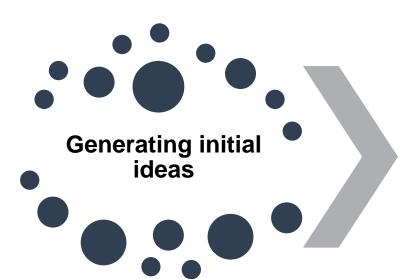

We would like to acknowledge those who have a lived experience of vulnerability. In particular, those who have chosen to share their experiences of navigating the energy sector to support our work.

We acknowledge the determination and courage it takes for people to revisit memories in the hope of shaping a better future for themselves and others.

We are deeply appreciative for this, and for any of you who may be in attendance today.

# Introduction Clare Savage – AER Chair

## The purpose of today is get your early feedback on high-level concepts pitched by the design group

Pitching high-level concepts

Providing
early
feedback and
input for
each concept

The design group have spent 3 weeks developing initial ideas in response to the problem statement

The design group have synthesised their ideas into high-level concepts around common themes, which they will 'pitch' today

The leadership group will provide feedback for the design group to further assess, develop and refine ideas for testing in early 2023

### Independent facilitators

### Executive Central Group

**Todd Everitt** 

Todd Everitt's experience in facilitation began at RACQ and grew to include senior roles with the Queensland Department of Transport and KPMG. Todd joined Executive Central as Managing Director in February 2020.

Todd co-facilitated workshop 1 with Leah.

**Leah Sertori** 

Leah is an experienced Facilitator and Executive Coach. Leah's experience includes independent facilitation of collaborative governance models and collective design in the water, health and defence science and technology sectors.

Leah's energy experience includes leadership of one of the Australian Government 'Solar City' research trials based in Central Victoria.

**Paul Garcia** 

In addition to providing online collaboration support for the design group, Paul Garcia will co-facilitate workshop 2 and 3 with Leah, and brings a wealth of experience in collaborative design and innovation.

Paul is an accredited Executive Coach focusing his expertise on both, individual growth and team development.

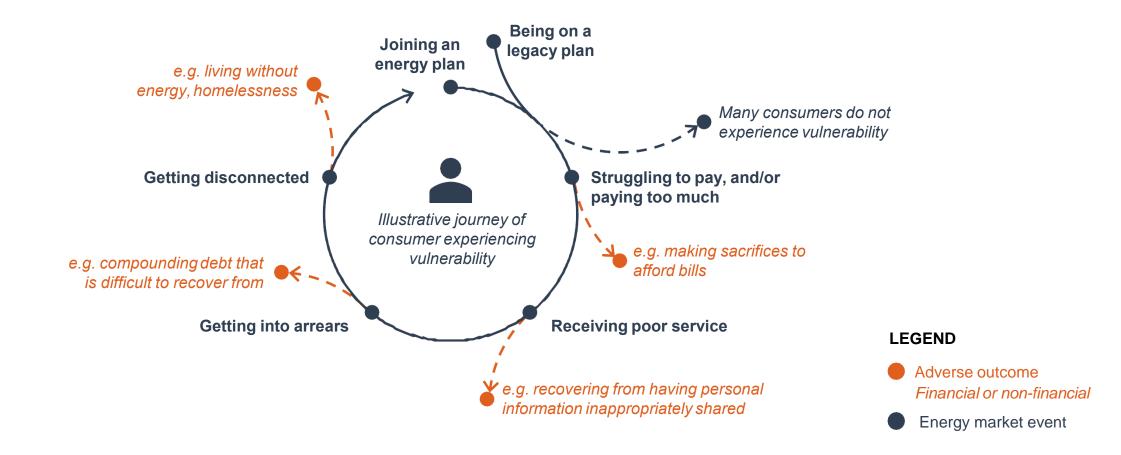

As a corporate leader for over 20 years Paul has honed his craft in the corporate IT and Consulting spaces, building teams, creating capability, designing strategy and executing on those strategies.

### Recap: The problem

Consumers experiencing vulnerability are not getting the support they need to avoid adverse outcomes.

### Recap: The design challenge

The game changer will better balance cost and risk within the sector so that consumers experiencing vulnerability are identified early and get the support they need to improve outcomes.

A system that engages consumers, including those with complex needs

Earlier and better targeted support

Equitable and efficient sharing of costs and risks

Improved trust – of and from consumers

Better protections for consumers

### Recap: Design principles

#### Any solution should ...

#### **IMPACT**

Deliver systemic reform for consumers experiencing vulnerability

Support consumers with complex needs

#### SCALE

Materially reduce the quantifiable and unquantifiable costs of consumer vulnerability

#### **EFFICIENCY**

Improve efficiency of the energy system

Incentivise
businesses to
identify customers
experiencing
vulnerability as
early as possible

#### **EQUITY**

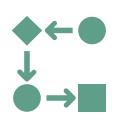

Deliver more equitable outcomes for energy market participants including better risk allocation

#### CONTEXT

Optimise with complementary supports for consumers experiencing vulnerability and avoid unintended consequences

#### **AGILITY**

Respond to the evolving energy system durably

**Consumer perspective** 

**Energy system perspective** 

**Operational perspective** 

### Design group process

Paul Garcia – Executive Central Group Independent facilitators

aer.gov.au 12

### **Design process**

#### 9 November 2022

Workshop 1

Break down design challenge into 6 'how might we' statements and begin ideation process

#### 10-28 November 2022

Online collaboration

Develop initial ideas within 3 'home teams', using templates provided by ECG / Game Changer Secretariat

#### **29 November 2022**

Workshop 2

Present and discuss initial ideas with the broader design group

### 30 November – 5 December 2022

Synthesise ideas into high-level concepts for feedback

#### 6 December 2022

Leadership group

Present idea concepts for early feedback and direction

### How the concepts were developed

The concepts being presented today have come out of a collective design process, using collaborative decision-making to generate and develop ideas for potential solutions

#### Workshop 1

9 November 2022

Design group broke down problem into 'how might we' statements and generated numerous ideas

#### Online collaboration

11 November – 20 November

Design group developed initial ideas in home teams using templates provided by ECG / Secretariat

#### Workshop 2

29 November 2022

Design group presented and discussed all 30+ initial ideas

#### **Working group**

30 November – 5 December

A subgroup of 7 design group members worked together to synthesise ideas into high-level concepts for feedback

### Feedback requested today

The design group is seeking initial feedback and input on each high-level concept in response to specific challenges they have identified, as well as two key questions:

Is this idea a game changer?

How can we enrich it?

This is also an opportunity for the leadership group to provide feedback on how the concepts meet the **scope of the design challenge and principles**, to inform further idea assessment and development.

### Additional feedback welcome by 16 December

Additional feedback can be provided out of session until 16 December 2022

To provide additional feedback, please contact the Game Changer Secretariat at:

ConsumerPolicy@aer.gov.au

Lois Shedd, Acting Director, Consumer Policy – 03 9910 9482 Bec Jolly, Assistant Director, Consumer Policy – 07 3052 1205

The Game Changer Secretariat will compile all feedback and share with the design group for integration in further concept development

### **Future roadmap**

#### 6 December 2022

Leadership group

Present idea concepts for early feedback and direction

#### **December – February**

Design group will use feedback from today to assess, refine and further develop high-level concepts into potential game-changing solutions

#### February 2023

Workshop 3 (date TBC)

Broadly test prioritised solutions in a 'living lab' with people with lived experience

#### **March 2023**

Present and confirm designed solution set to the leadership group

### Hand over to the leadership group

Leadership group agree as signatories to advocate for the game changer

### Thank you
