Dear Dr Vertigan

AER submission to the Gas Market Reform Group – Gas Pipeline Information Disclosure and Arbitration Framework: Implementation Options Paper

Thank you for the opportunity to comment.

The AER supports the overarching objectives outlined in the options paper and the preliminary views of the Gas Market Reform Group (GMRG). Our comments in the attached submission are aimed at facilitating the GMRG to implement its preliminary views in the most effective manner possible.

The AER looks forward to assisting the GMRG in further developing the framework in any way it considers helpful.

Yours sincerely
