Dear Mr Roberts

Reference Service Proposal for the Amadeus Gas Pipeline

APT Pipelines (NT) Pty Limited (APTNT) is the service provider for the Amadeus Gas Pipeline.

As service provider, APTNT is to submit revisions to the Access Arrangement for the Amadeus Gas Pipeline to the Australian Energy Regulator by 1 July 2020. In accordance with new rule 47A of the National Gas Rules, APTNT is to submit, for approval, some 12 months prior to that date, a reference service proposal for the pipeline.

Please find attached APTNT's reference service proposal for the Amadeus Gas Pipeline.

Although specific details of service provision on the Amadeus Gas Pipeline are subject to confidentiality provisions in agreements with pipeline users, APTNT has prepared the reference service proposal as a public document. The proposal can be made available to interested stakeholders via the Australian Energy Regulator's website.

APTNT looks forward to engaging with the Australian Energy Regulator to facilitate approval of the reference service proposal, allowing preparation of the Access Arrangement revisions for the Amadeus Gas Pipeline to continue. Please contact me, on 08 6189 4594, or at john.williams@apa.com.au, for any further information which might be required on the proposal.

Yours sincerely

A handwritten signature in black ink that reads 'John L. Williams'. The signature is fluid and cursive, with a large initial 'J'.
