### Confidentiality Claim

#### 1.1 Confidentiality template

**CitiPower** sets out below the completed Confidentiality template in respect of this regulatory proposal in accordance with the AER's *Better Regulation Confidentiality Guideline* dated August 2017 (**Confidentiality Guideline**).

Title, page and paragraph number of document containing the confidential information	Description of the confidential information.	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category <sup>1</sup> that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category. If information falls within 'other' please provide further details on why the information should be treated as confidential.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
<b>Attachments to the revised proposal</b>						
CP RRP BUS 9.01 - Security of critical infrastructure – Dec2020 – Confidential (pp. 2, 5, 6, 8, 9, 10, 12-24)	Costs quoted by competing service providers	Opex	Market sensitive cost inputs and market intelligence	Includes market sensitive pricing estimates	Disclosing price estimates would undermine the competitive tendering process. Vendor documents prohibit disclosure without prior consent.	The detriment to customers of undermining competitive tender processes outweighs the public benefit from disclosure of the information.  The public version of the model provides sufficient information for customers to understand the magnitude of the total cost.

### Confidentiality Claim

#### Confidentiality category

A NSP must categorise the confidential information into one of the following confidentiality categories:

- *Information affecting the security of the network* - information which, if made public, may jeopardise security of the network or a NSP's ability to effectively plan and operate its network.
- *Market sensitive cost inputs* - information such as supplier prices, internal labour costs, and information which would affect the NSP's ability to obtain competitive prices in future infrastructure transactions, such as tender processes.
- *Market intelligence* - information which may provide an advantage to a NSP's competitors for non-regulated or contestable activities.
- *Strategic information* – information such as the acquisition of land and easements, where the release of this information might adversely impact the NSP's ability to negotiate a fair market price for these items.
- *Personal information* - information about an individual or customer whose identity is apparent, or can reasonably be ascertained from the information which raises privacy considerations.
- *Other* - information which the NSP claims is confidential but does not fit into one of the above categories.
