Dear Sir

Response to National Distribution Guidelines – Issues Papers

ENERGEX appreciates the opportunity to comment on the AER's Issues Papers released in November 2007, namely:

- Guidelines, models and schemes for electricity distribution network service providers; and
- Service target performance incentive scheme.

As there were no models released specifically with these guidelines, ENERGEX has reviewed and provided comment on the basis that the models referred to in the issues paper are the final models under TNSP guidelines, not the models released specifically for NSW and ACT distributors.

Please find our responses to the specific matters raised in the Issues papers attached.

Yours sincerely
