Dear Mr Shepherd

Energize Energy Pty Ltd's application for an individual retail exemption

I refer to your application from June 2016, for an individual exemption under the National Energy Retail Law (Retail Law) for Energize Energy Pty Ltd (ACN 606 117 784).

I am writing to inform you that the Australian Energy Regulator (AER) has considered Energize Energy's application for an individual exemption and that it decided, on 16 September 2016, to grant an individual exemption in accordance with s.110 of the Retail Law. This letter constitutes notice of intention to grant an individual exemption.

In accordance with the National Electricity Retail Rules (Retail Rules), the AER has published the application on its website, and sought submissions from interested parties.¹ The AER received one submission to Energize Energy's application.

The AER has considered the policy principles relating to exempt selling in s. 114 of the Retail Law, being:

- a) regulatory arrangements for exempt sellers should not unnecessarily diverge from those applying to retailers,
- b) exempt customers, should, as far as practicable, be afforded the right to a choice of retailer in the same way comparable retail customers in the same jurisdiction have that right,
- c) exempt customers, should, as far as practicable, not be denied customer protections afforded to retail customers under this Law and Rules.

¹ r. 155(3) and 156, National Energy Retail Rules.

In making its decision the AER is also guided by the objective of the Retail Law,² the exempt seller factors,³ and the customer related factors.⁴

The AER is satisfied that Energize Energy should be exempt from the requirement to hold a national retailer authorisation, having regard to the above considerations. If Energize Energy wishes to change the way it sells electricity it should contact the AER as it may need to apply for an authorisation or another exemption. If these activities are not covered by this exemption Energize Energy may be in breach of s. 88 of the Retail Law and we may take enforcement action or otherwise seek to ensure compliance.

This individual exemption is subject to acceptance of the conditions⁵ set out at Schedule 1 to this letter. One of these conditions relates to information disclosure. Specifically, this condition is intended to ensure that your customers understand the nature of the service that you are providing and the protections they are entitled to (as opposed to the service and protections your customers would receive from their energy retailer).

For the individual exemption to come into effect, Energize Energy must advise the AER in writing, by **20 October 2016**, whether it accepts the attached conditions. Energize Energy cannot commence energy selling under its individual exemption until it has done so. Please be aware that the AER may vary conditions attached to an individual exemption at any time in accordance with rule 158 of the Retail Rules.

If you have any further queries, or would like to discuss this further, please contact Susan Faulbaum on (08) 8213 3463.

Yours sincerely

Jacqueline Thorpe
Acting General Manager, Retail Markets

² The National Energy Retail Law objective is to “promote efficient investment in and efficient operation and use of energy services for the long term interests of energy consumers with respect to price, quality, safety, reliability and security of supply of energy”. (s. 13, Retail Law)

Schedule 1: Instrument of exemption

INDIVIDUAL EXEMPTION FROM THE REQUIREMENT TO HOLD A RETAILER AUTHORISATION

The Australian Energy Regulator on 17 March 2016, decided pursuant to section 110 of the National Energy Retail Law, to grant Energize Energy Pty Ltd (ACN 606 117 784) (the exempt person) an individual exemption from the requirement to hold a retailer authorisation under section 88 of the National Energy Retail Law, subject to the following conditions.

Condition 1 - Information provision

The exempt person must provide the customer in writing a plain English notice explaining that the contract is covered by Australian consumer protection laws and is separate to the customer's contract with their retailer and distributor which are covered under the National Energy Retail Law.

Condition 2 – Exemption limited to the sale of electricity through power purchase agreements

This exemption is conditional upon the exempt person:

- refraining from registering in the wholesale market for the purposes of purchasing energy;
- not being the financially responsible retailer for the premises (rather, this must be an authorised retailer); and
- only selling to premises that are connected to the interconnected national electricity system.
