Australian Competition and Consumers Commission
PO Box 1199
Dickson ACT 2602

Dear Kanwaljit,

The Energy Users Association of Australia (EUAA) is pleased to provide the following submission in response to the Gasnet and Vencorp Proposed Victorian Gas Access Arrangements.

We apologise for the lateness of our submission and appreciate the Commission's tolerance of this. Our Association has recently experienced considerable difficulty in resourcing sufficient effort to handle the range of issues that are considered as high priority for our members.

We would be happy to discuss any aspects of the submission with your staff if this is appropriate and look forward to participating further in the review.

Yours sincerely

Alan Reichel
