Dear Ms Kaur

**Re: Moomba – Adelaide Pipeline System Access Arrangement – ACCC Draft Decision Consolidated Access Arrangement Information Document**

Attached herewith is a consolidated version of Epic Energy's access arrangement information document, dated 11 September 2000. This document incorporates modifications addressed in a range of correspondence with the ACCC and is provided at the request of the ACCC to facilitate further public consultation.

It should be noted that the consolidated document **does not** address any amendments proposed by the ACCC in its draft decision.

It should be further noted that:

- (a) incorporating amendments the subject of correspondence with the ACCC results in increased ORC and DORC amounts, and
- (b) following recent discussion with officers of the ACCC, while tables 1 to 5 in the document have been amended to reflect correspondence with the ACCC, they have not been amended to reflect the increased ORC and DORC amounts shown elsewhere in the consolidated document.

Further, it has not been possible to show all amendments in 'red-lined' mode.

Yours sincerely
