

JEN's 2018 PRICING PROPOSAL CONFIDENTIALITY STATEMENT

Claims for commercial-in-confidence

The following table sets out specific sections of Jemena Electricity Network's (**JEN's**) 2018 pricing proposal that JEN claims to be commercial-in-confidence and the basis of the claim.

JEN has applied the rationale for claiming information as commercial-in-confidence as set out in the AER's confidentiality guideline.

JEN has provided reasons detailing how and why disclosure of the information would cause detriment to the business. JEN understands that this confidential information being available to the AER to perform its functions under the rules provides a public benefit, and has assessed that in all identified cases JEN's confidentiality reasons, together with the benefits already realised through the AER's confidential use of this data, are not outweighed by any additional public benefit to disclosure of the information.

Title, page & paragraph number of document containing confidential information	Description of confidential information	Topic the confidential information relates to (e.g. capex, opex, WACC etc.)	Identify the recognised confidentiality category that the information falls within	Provide a brief explanation of why the information falls into the selected category. If information falls within 'other', please provide further details on why the information should be treated as confidential	Specify reasons supporting how and why detriment may be caused from disclosing the identified information	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers)
JEN's 2018 pricing proposal Attachment 1 - JEN's 2018 tariff model	Energy consumption data (forecast) Payment to an individual power station	Network charges	Personal information	Information that is related to the individual customers can be identified from the model	Compliance with Privacy Law	Compliance with Privacy Law

The categories included in the confidentiality guideline are:

1. *Information affecting the security of the network* - information which, if made public, may jeopardise security of the network or a NSP's ability to effectively plan and operate its network.
 2. *Market sensitive cost inputs* - information such as supplier prices, internal labour costs, and information which would affect the NSP's ability to obtain competitive prices in future infrastructure transactions, such as tender processes.
 3. *Market intelligence* - information which may provide an advantage to a NSP's competitors for non-regulated or contestable activities.
 4. *Strategic information* – information such as the acquisition of land and easements, where the release of this information might adversely impact the NSP's ability to negotiate a fair market price for these items.
 5. *Personal information* - information about an individual or customer whose identity is apparent, or can reasonably be ascertained from the information which raises privacy considerations.
 6. *Other* - information which the NSP claims is confidential but does not fit into one of the above categories.
