Australian Energy Regulator
GPO Box 520
Melbourne VIC 3001

Dear Madam,

In Regards to Solar power buy back from Customers/Residents of Iron Knob or Kimba Area.

Clause 23 states there are no other suppliers of electricity other than the GFG or Defence department. This is not true.

There several residents in the Town of Iron Knob who have solar power supplies installed in there Homes who do not get paid at present for the excess energy they generate and put back onto our local grid. I believe this is because of this Exemption that has no mention to the buy back of Customers Solar generated power.

Can you please amend this application so that Cowell electric has to buy back the excess power generated by Resident Solar systems at the present State required amounts or more.

I am a resident of Iron Knob who intends to put a Solar system onto our Home.

Name and address withheld.
