15 October 2021

Dear Sir/Madam,

Park Avenue at South Bank LBUP 101696 — variation of individual retail exemption

In our letter dated 1 July 2021, we informed you of our intention to vary Park Avenue at South Bank LBUP 101696's (South Bank) individual exemption granted on 16 December 2016 for 410 Stanley Street South Brisbane, QLD 4101.

We advised that the AER is varying the individual exemption to include a requirement to join the energy ombudsman scheme for each jurisdiction where South Bank sells energy to exempt customers.

This letter confirms that the individual exemption variation came into effect on 12 October 2021.

What you need to do by COB 12 November 2021

1. Confirm in writing to the AER at AERexemptions@ aer.gov.au that you accept the varied conditions set out in the Instrument of Exemption at Schedule 1 to this letter.
2. Visit the [Energy and Water Ombudsman Queensland](http://www.ewoq.com.au) (EWOQ) website to find out about the scheme and apply for your membership once permitted to do so.

Background

In May 2020, the *Mineral and Energy Resources and Other Legislation Amendment Act 2020* was passed through the Queensland Parliament. This legislation allows for EWOQ's jurisdiction to cover exempt persons under regulations, which are yet to be drafted.

Once the relevant regulations are drafted and enacted, EWOQ will be able to resolve disputes between exempt persons and their exempt customers.

In anticipation of this new requirement, the AER is adding the relevant ombudsman scheme condition provided in the Instrument of Exemption at Schedule 1 to this letter to apply to South Bank's individual exemption.

South Bank will be responsible for seeking EWOQ membership once the Queensland Government has enacted these regulations.

Why should my business join an energy ombudsman scheme?

Energy ombudsman schemes play an important role in resolving disputes that exempt entities and their embedded network customers have not been able to resolve themselves. The requirement to join an energy ombudsman scheme brings consumer protections for customers of embedded networks in line with the protections for customers of authorised retailers and distributors.

What happens if my business does not join an energy ombudsman scheme?

Section 112(2) of the National Energy Retail Law (Retail Law) requires exempt persons to comply with the conditions attached to their individual exemptions. Failing to adhere to these conditions is considered a breach of the Retail Law and may attract civil penalties of:

- Up to \$10,000,000 or
- If the Court can determine the value of any benefit reasonably attributable to the breach of the civil penalty provision that the body corporate, and any body corporate related to the body corporate, has obtained, directly or indirectly—3 times the value of that benefit.
- If the Court cannot determine the value of the benefit—10% of the annual turnover of the body corporate during the 12-month period ending at the end of the month in which the body corporate breached, or began breaching, the civil penalty provision.

If you have any further queries, or would like to discuss this further, please contact Sarah Pinchuck at sarah.pinchuck@ aer.gov.au or 07 3835 4661.

Yours sincerely

Condition 9 - Estimation as basis for bills

1. The exempt person must use best endeavours to ensure that the meter for each exempt customer is read and used as the basis, or apportioned, for any bill issued.
2. The exempt person cannot rely on an estimation of the meter value at the start of an energy supply arrangement with an exempt customer, or for the purpose of issuing a final bill to an exempt customer.
3. The exempt person may base an exempt customer's bill on an estimation of the exempt customer's consumption of energy where the exempt person is not able to reasonably or reliably base the bill on an actual meter reading.

must be based on:

- a. historical metering data for the exempt customer reasonably available to the exempt person, or
 - b. where this is not available, the average usage of energy by a comparable customer over the corresponding period.

2. The exempt person must provide notice to the exempt customer of any change in the exempt customer's tariff as soon as practicable, and no later than the exempt customer's next bill.
3. The exempt person must not impose any charge on an exempt customer that could not be charged by the relevant local area retailer for new connections under a standard retail contract.¹
4. The exempt person must limit any fee charged to a customer for late payment to a recovery of reasonably incurred costs by the exempt person as a result of the customer's late payment.²

¹ For clarification, a "charge" includes, but is not limited to, account establishment fees, late payment fees, debt collection fees, service charges, and security deposits. The fees and charges allowable under a standard retail contract are governed by Division 6 of the National Energy Retail Rules (which sets out the requirements for charging a security deposit under a standard retail contract) and may also be governed by jurisdictional legislation.

² For clarification, a late payment fee can only be charged where it has not been excluded by jurisdictional legislation.

Condition 13 – Undercharging and overcharging

1. Where an exempt customer has been undercharged, the exempt person can recover the amount undercharged subject to the following:

 - b. the exempt person cannot charge interest on the undercharged amount
 - c. the exempt person must offer the exempt customer time to pay the undercharged amount by instalments, over a period nominated by the customer (up to 12 months, but no longer than the period of the undercharging).
2. Where an exempt customer has been overcharged, the exempt person must inform the customer within 10 business days after becoming aware of the overcharging and repay the amount overcharged subject to the following:
 - a. where the amount overcharged is \$25 or more, the exempt person must refund the amount to the exempt customer if requested, or if no such request is made, credit the amount to the exempt customer's next bill. Where the exempt customer no longer purchases energy from the exempt person, the exempt person must use best endeavours to refund the amount within 10 business days.
 - b. where the amount overcharged is less than \$25, the exempt person must credit that amount to the exempt customer's next bill.
 - c. no interest is payable on the overcharged amount.
 - d. where the overcharging was the result of the exempt customer's fault or unlawful act or omission, the exempt person is limited to repaying the amount overcharged in the 12 months before the date on which the error was discovered.

 - i. following non-payment by the pay-by date, the exempt person has given the exempt customer a reminder notice requesting payment by a date at least 6 business days from the date of issue of the reminder notice, and, in the case of residential exempt customers, has offered the exempt customer more flexible payment terms to pay any amount outstanding and has restated the forms of assistance available if the non-payment is due to financial difficulty, and
 - ii. following non-payment by the date specified in the reminder notice, or, in the case of residential customers, the establishment of more flexible payment terms, the exempt person has given the exempt customer a disconnection warning notice informing the exempt customer that disconnection may occur if payment of the outstanding bill is not made by a date at least 6 business days from the date of issue of the warning notice, and
 - iii. the exempt person has, after issuing the disconnection warning notice, used its best endeavours to contact the customer in person or by telephone in connection with the failure to pay, and
 - iv. the exempt customer has, by the date specified in the disconnection warning notice, refused or failed to take any reasonable action towards settling the debt.
3. Where an exempt customer is disconnected in accordance with paragraph 2(b) of this condition, the exempt person must use its best endeavours to notify the exempt customer in person or by telephone prior to the disconnection, and must arrange for reconnection of the premises as soon as practicable.

2. The exempt person must contact its distributor to ask whether disconnection of a retail customer in the relevant jurisdiction would be prohibited on that day due to extreme weather conditions. Where the distributor confirms that the disconnection of a retail customer would be prohibited on that day, the exempt person must not disconnect the exempt customer's premises.
3. This condition does not apply where:
- a. the exempt customer has requested disconnection, or
 - b. where continuity of supply to the exempt customer's premises would be unsafe, or
 - c. this condition does not apply where there is an unplanned interruption to supply, or
 - d. this condition does not apply where the energy supply agreement between the exempt person and exempt customer has been terminated.

Condition 16 - Reconnection of supply

2. If the government or non-government energy rebate, concession or assistance under a retail scheme can only be claimed by the exempt person on behalf of the eligible exempt customer, then, assuming there is no legal impediment, the exempt person must make that claim and, if successful, must apply the rebate, concession or assistance to the exempt customer's bill.

Condition 18 - Choice of retailer

1. Where an exempt customer is eligible under state or territory legislation to purchase energy from a retailer of their choice, the exempt person must not do anything to discourage or prevent them from exercising this choice, whether by:

 - b. unreasonably hindering their efforts to find another retailer, or
 - c. unreasonably hindering any metering or network changes required to enable choice of retailer.

Condition 19 - Contact details

1. The exempt person must provide a means of contact for account inquiries and complaints that can be readily accessed by exempt customers. Where a telephone number is provided, the charge for this call must be no more than the cost of a local call.

Condition 20 – Dispute resolution

1. In the event of a dispute concerning the sale of energy to an exempt customer, and in the absence of a determination of the relevant tenancy tribunal if the customer is a tenant, the exempt person must:
 - a. make reasonable endeavours to resolve the dispute, and
 - b. advise the exempt customer of any right that the exempt customer has to access the energy Ombudsman scheme or any other relevant external dispute resolution body in the state or territory in which the exempt customer is located, if applicable.
2. The exempt person's dispute resolution process must meet, at a minimum, Australian Standards: AS/NZS 10002:2014 Customer Satisfaction – Guidelines for complaints handling in organisations.

Condition 22 – Continuity of supply

1. The exempt person must notify the exempt customers and the AER immediately if they are (or expect to be) disconnected, or there is any likelihood that they will be unable to continue selling energy.

Condition 23 – Termination of energy supply agreement

1. An energy supply agreement between the exempt person and an exempt customer will terminate:
 - a. on a date agreed by the exempt person and exempt customer, or
 - b. five business days (or a different time agreed by the exempt person and exempt customer) from the date when the exempt customer gives the exempt person a termination notice, or
 - c. at the conclusion of the exempt customer's lease for, or occupancy of, the premises to which the energy is supplied, or
 - d. when the exempt customer starts receiving energy retail services from a different retailer or exempt person, or
 - e. when a different exempt customer moves in and starts receiving customer retail services for the premises, or
 - f. at the end of a period of 10 business days commencing on the day the exempt customer's premises are disconnected, where the conditions for reconnection have not been met.
