AER Confidentiality Template

Title, page and paragraph number of document containing the confidential information	Description of the confidential information.	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
Powerlink - Asset Refurbishment - Standard p1	Staff names	AM Framework	Personal information	Information identifies specific employees	Employees may be directly and improperly approached by external parties	This is no public benefit in disclosure of this information as the names of the employees are not relevant.
Powerlink - Asset Maintenance - Standard p1, 2	Staff names	AM Framework	Personal information	Information identifies specific employees	Employees may be directly and improperly approached by external parties	This is no public benefit in disclosure of this information as the names of the employees are not relevant.
Powerlink - Value Driven maintenance - Procedure p1	Staff names	AM Framework	Personal information	Information identifies specific employees	Employees may be directly and improperly approached by external parties	This is no public benefit in disclosure of this information as the names of the employees are not relevant.
Information about Powerlink's Network - Jan 2021 - Confidential p1 - 5 (complete document)	List of transmission circuit and injection points on Powerlink Network containing every transmission circuit and injection point on Powerlink network.	STPIS NCC	Information affecting the security of the network	The information identifies specific infrastructure in publicly accessible places and detail of Powerlink's network and customers' plant and configuration.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Powerlink - Future Workplace Options Analysis p13, 14, 16, 17	Critical National Infrastructure	Capex	Information affecting the security of the network	The information identifies Critical National Infrastructure	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Powerlink - Future Workplace Options Analysis p30, 46	Staff names	Capex	Personal information	Information identifies specific employees of service providers	Service provider employees may be directly and improperly approached by external parties	This is no public benefit in disclosure of this information as the names of the employees are not relevant.
Powerlink - Future Workplace Options Analysis p31-39	Cost related information	Capex	Market sensitive cost inputs	The cost information may affect Powerlink's ability to secure competitive price outcomes in future procurement activities.	The information would be interpreted by potential suppliers as an indication of Powerlink's willingness to pay for the provision of equipment and services.	Publication of forecast costs will compromise Powerlink's ability to deliver projects at the lowest possible costs which is against consumers interests.
Appendix 6.04 - Insurance Projections p2, pp11-16, pp19-21	Details of insurance arrangements including deductible, limits of cover premiums and specific loss events	Details of insurance arrangements (Opex)	Market sensitive cost inputs	Information would provide details of insurance cover that could provide entities with information that would adversely impact Powerlink's ability to negotiate competitive prices	Valuable information that, if released, could affect Powerlink's ability to obtain competitive prices in the Market Place	Publication of forecast insurance information will compromise Powerlink's ability to deliver the lowest possible cost which is against consumers interests.
Appendix 6.04 – Insurance Projections p1	Staff names	Details of insurance arrangements (Opex)	Personal information	Information identifies specific employees of service providers	Service provider employees may be directly and improperly approached by external parties	This is no public benefit in disclosure of this information as the names of the employees are not relevant.
Appendix 12.01 - Nominated Pass Through Events p6, 8	Details of insurance arrangements including deductible, limits of cover premiums and specific loss events	Details of insurance arrangements (Opex)	Market sensitive cost inputs	Information would provide details of insurance cover that could provide entities with information that would adversely impact Powerlink's	Valuable information that, if released, could affect Powerlink's ability to obtain competitive prices in the Market Place	Publication of forecast insurance information will compromise Powerlink's ability to deliver the lowest possible cost which is against consumers interests.

Title, page and paragraph number of document containing the confidential information	Description of the confidential information.	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
				ability to negotiate competitive prices		
Appendix 9.01 - Nominated Averaging Periods p1-2	Return of Debt & Risk free rate tables	Rate of Return	Market sensitive cost inputs	The information is deemed to be confidential under the AER's Rate of Return Instrument, 2018	Disclosure would be in contravention of the AER's Rate of Return Instrument, 2018	There is no public benefit in contravening the AER's Rate of Return Instrument, 2018
Appendix 8.01 - Regulatory Asset Base Transfers pp1-8 (complete document)	Details of movement of assets in / out of the RAB	RAB	Personal information	The information identifies specifics of customer connection arrangements and costs	The information is commercial-in-confidence.	There is no public benefit in disclosure of details of individual customer connection arrangements.
Appendix 8.01 - Regulatory Asset Base Transfers - Attachment B p1 (complete document)	Details of movement of assets in / out of the RAB	RAB	Personal information	The information identifies specifics of customer connection arrangements and costs	The information is commercial-in-confidence.	There is no public benefit in disclosure of details of individual customer connection arrangements.
Powerlink - Land Asset Methodology - Framework p1	Staff names	AM Framework	Personal information	Information identifies specific employees	Employees may be directly and improperly approached by external parties	This is no public benefit in disclosure of this information as the names of the employees are not relevant.
Powerlink - HV Underground Cable Asset Methodology - Framework p1, 2	Staff names	AM Framework	Personal information	Information identifies specific employees	Employees may be directly and improperly approached by external parties	This is no public benefit in disclosure of this information as the names of the employees are not relevant.
Powerlink - Reinvestment Criteria - Framework p1	Staff names	AM Framework	Personal information	Information identifies specific employees	Employees may be directly and improperly approached by external parties	This is no public benefit in disclosure of this information as the names of the employees are not relevant.
Powerlink - Substation Asset Methodology - Framework p1	Staff names	AM Framework	Personal information	Information identifies specific employees	Employees may be directly and improperly approached by external parties	This is no public benefit in disclosure of this information as the names of the employees are not relevant.
Powerlink - Transmission Line Asset Methodology - Framework p1, 2	Staff names	AM Framework	Personal information	Information identifies specific employees	Employees may be directly and improperly approached by external parties	This is no public benefit in disclosure of this information as the names of the employees are not relevant.
Appendix 16.05 - Submissions to Powerlink's Transmission Pricing Consultation Paper pp2 - 4	Confidential submissions to the pricing consultation	Pricing Methodology	Other	Feedback provided on a confidential basis.	Stakeholders provided feedback in confidence. They did not wish for their views put into the public domain.	Powerlink accepted both confidential and public submissions to the pricing consultation to ensure that as many stakeholder views as possible could be considered.
Appendix 16.05 - Submissions to Powerlink's Transmission Pricing Consultation Paper p17, 18	Staff names	Pricing Methodology	Personal information	Information identifies specific employees	Employees may be directly and improperly approached by external parties	This is no public benefit in disclosure of this information as the names of the employees are not relevant.
Appendix 7.02 - GHD Report - Unit Rates for Repex Modelling p30, 31, 32, 33, 34, 35, 36, 37	Independent benchmark unit rates	Capex	Market intelligence	The cost information may affect Powerlink's ability to secure competitive price outcomes in future procurement activities.	The information would be interpreted by potential suppliers as an indication of Powerlink's willingness to pay for the provision of equipment and services.	Publication of forecast unit costs will compromise Powerlink's ability to deliver projects at the lowest possible costs which is against consumers interests.

Title, page and paragraph number of document containing the confidential information	Description of the confidential information.	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
Appendix 7.03 - Cost Estimating Methodology p13, 14, 15, 16, 17, 18	Independent benchmark unit rates and Powerlink's unit rates derived from Powerlink cost estimating units	Capex	Market intelligence	The cost information may affect Powerlink's ability to secure competitive price outcomes in future procurement activities.	The information would be interpreted by potential suppliers as an indication of Powerlink's willingness to pay for the provision of equipment and services.	Publication of forecast unit costs will compromise Powerlink's ability to deliver projects at the lowest possible costs which is against consumers interests.
Tully Transformer 2 Replacement Project Pack - T2 Transformer Condition Assessment T048 Tully Substation p1	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Tully Transformer 2 Replacement Project Pack - T2 Transformer Condition Assessment T048 Tully Substation p4	Substation operating/layout diagram	Capex	Information affecting the security of the network	The information identifies specific circuit switching arrangements.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Tully Transformer 2 Replacement Project Pack - CP.02370 - Tully Substation - Transformer 2 Replacement - Planning Statement p3	Network diagram	Capex	Information affecting the security of the network	The information identifies specific circuit switching and connection arrangements.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Tully Transformer 2 Replacement Project Pack - Project Scope Report CP.02370 T048 Tully No2 Transformer Replacement p1, 2, 4	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Tully Transformer 2 Replacement Project Pack - Project Scope Report CP.02370 T048 Tully No2 Transformer Replacement p2	Substation operating/layout diagram	Capex	Information affecting the security of the network	The information identifies specific circuit switching arrangements.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Tully Transformer 2 Replacement Project Pack - Concept Estimate for CP.02370 - T048 Tully Transformer Substation No 2 Transformer Replacement p1	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Tully Transformer 2 Replacement Project Pack - Concept Estimate for CP.02370 - T048 Tully Transformer Substation No 2 Transformer Replacement p3, 8	Project cost information	Capex	Market sensitive cost inputs	The cost information may affect Powerlink's ability to secure competitive price outcomes in future procurement activities.	The information would be interpreted by potential suppliers as an indication of Powerlink's willingness to pay for the provision of equipment and services.	Publication of forecast unit costs will compromise Powerlink's ability to deliver projects at the lowest possible costs which is against customers' interests.
Tully Transformer 2 Replacement Project Pack - Concept Estimate for CP.02370 - T048 Tully Transformer Substation No 2 Transformer Replacement p4	Substation operating/layout diagram	Capex	Information affecting the security of the network	The information identifies specific circuit switching arrangements.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Woolooga Secondary Systems Replacement Project Pack - Secondary Systems Condition Assessment Report - H005 Woolooga 275kV SVC, 132/275kV Substation p1	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.

Title, page and paragraph number of document containing the confidential information	Description of the confidential information.	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
Woolooga Secondary Systems Replacement Project Pack - Secondary Systems Condition Assessment Report - H005 Woolooga 275kV SVC, 132/275kV Substation p6	Substation operating/layout diagram	Capex	Information affecting the security of the network	The information identifies specific circuit switching arrangements.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Woolooga Secondary Systems Replacement Project Pack - CP.02392 - H005 Woolooga Secondary Systems Replacement - Planning Statement p4	Substation operating/layout diagram	Capex	Information affecting the security of the network	The information identifies specific circuit switching arrangements.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Woolooga Secondary Systems Replacement Project Pack - CP.02392 - H005 Woolooga Secondary Systems Replacement - Planning Statement p5	Network diagram	Capex	Information affecting the security of the network	The information identifies specific circuit switching and connection arrangements.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Woolooga Secondary Systems Replacement Project Pack - Project Scope Report CP.02392 Woolooga Secondary Systems Replacement p1, 2, 7	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Woolooga Secondary Systems Replacement Project Pack - Project Scope Report CP.02392 Woolooga Secondary Systems Replacement p4	Substation operating/layout diagram	Capex	Information affecting the security of the network	The information identifies specific circuit switching arrangements.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Woolooga Secondary Systems Replacement Project Pack - Concept Estimate for CP.02392 - Woolooga Secondary Systems Replacement p1	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Woolooga Secondary Systems Replacement Project Pack - Concept Estimate for CP.02392 - Woolooga Secondary Systems Replacement p3, 12	Project cost information	Capex	Market sensitive cost inputs	The cost information may affect Powerlink's ability to secure competitive price outcomes in future procurement activities.	The information would be interpreted by potential suppliers as an indication of Powerlink's willingness to pay for the provision of equipment and services.	Publication of forecast unit costs will compromise Powerlink's ability to deliver projects at the lowest possible costs which is against customers' interests.
Woolooga Secondary Systems Replacement Project Pack - Concept Estimate for CP.02392 - Woolooga Secondary Systems Replacement p5	Substation operating/layout diagram	Capex	Information affecting the security of the network	The information identifies specific circuit switching arrangements.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Greenbank to Mudgeeraba 275kV Transmission Line Refit Project Pack - Transmission Line Condition Assessment - Report - BS1018 and BS1019 Greenbank to Mudgeeraba 275kV p1	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.

Title, page and paragraph number of document containing the confidential information	Description of the confidential information.	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
Greenbank to Mudgeeraba 275kV Transmission Line Refit Project Pack - Transmission Line Condition Assessment - Report - BS1018 and BS1019 Greenbank to Mudgeeraba 275kV p9	Map/location information	Capex	Information affecting the security of the network	The information identifies the location of transmission network assets.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Greenbank to Mudgeeraba 275kV Transmission Line Refit Project Pack - Base Case Risk and Maintenance Costs Summary Report - Greenbank to Mudgeeraba T/L Reinvestment p2	Map/location information	Capex	Information affecting the security of the network	The information identifies the location of transmission network assets.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Greenbank to Mudgeeraba 275kV Transmission Line Refit Project Pack - Project Scope Report CP.02415 Greenbank - Mudgeeraba 275kV TL Refit p1, 2, 5	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Greenbank to Mudgeeraba 275kV Transmission Line Refit Project Pack - Project Scope Report CP.02415 Greenbank - Mudgeeraba 275kV TL Refit p3	Map/location information	Capex	Information affecting the security of the network	The information identifies the location of transmission network assets.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Greenbank to Mudgeeraba 275kV Transmission Line Refit Project Pack - Concept Estimate for CP.02415 - Greenbank - Mudgeeraba 275kV TL Refit p1	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Greenbank to Mudgeeraba 275kV Transmission Line Refit Project Pack - Concept Estimate for CP.02415 - Greenbank - Mudgeeraba 275kV TL Refit p3	Map/location information	Capex	Information affecting the security of the network	The information identifies the location of transmission network assets.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Greenbank to Mudgeeraba 275kV Transmission Line Refit Project Pack - Concept Estimate for CP.02415 - Greenbank - Mudgeeraba 275kV TL Refit p4, 8	Project cost information	Capex	Market sensitive cost inputs	The cost information may affect Powerlink's ability to secure competitive price outcomes in future procurement activities.	The information would be interpreted by potential suppliers as an indication of Powerlink's willingness to pay for the provision of equipment and services.	Publication of forecast unit costs will compromise Powerlink's ability to deliver projects at the lowest possible costs which is against customers' interests.
Ross to Chalumbin 275kV Transmission Line Refit Project Pack - Transmission Line Condition Assessment Report Built Section 1220 Ross to Chalumbin 275kV p1	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Ross to Chalumbin 275kV Transmission Line Refit Project Pack - Transmission Line Condition Assessment Report Built Section 1220 Ross to Chalumbin 275kV p3, 6	Map/location information	Capex	Information affecting the security of the network	The information identifies the location of transmission network assets.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.

Title, page and paragraph number of document containing the confidential information	Description of the confidential information.	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
Ross to Chalumbin 275kV Transmission Line Refit Project Pack - CP.02750 BS1220 Ross – Chalumbin Structure Refit – Planning Statement p3	Map/location information	Capex	Information affecting the security of the network	The information identifies the location of transmission network assets.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Ross to Chalumbin 275kV Transmission Line Refit Project Pack - CP.02750 BS1220 Ross – Chalumbin Structure Refit – Planning Statement p4	Network diagram	Capex	Information affecting the security of the network	The information identifies specific circuit switching and connection arrangements.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Ross to Chalumbin 275kV Transmission Line Refit Project Pack - CP.02750 BS1220 Ross – Chalumbin Structure Refit – Planning Statement p6, 7	Customer connection information	Capex	Other - customer connection information	Information provided under rule 5.3 of the NER is confidential.	Powerlink would be in breach of clause 5.3.8 of the Rules if the information is disclosed.	It is not in the public interest for Powerlink to be seen to breach the Rules.
Ross to Chalumbin 275kV Transmission Line Refit Project Pack - Base Case Risk and Maintenance Costs Summary Report CP.02750 BS1220 Ross to Chalumbin Transmission Line Reinvestment p2	Map/location information	Capex	Information affecting the security of the network	The information identifies the location of transmission network assets.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Ross to Chalumbin 275kV Transmission Line Refit Project Pack - Project Scope Report CP.02750 BS1220 Ross to Chalumbin Life Extension p1, 2, 6	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Ross to Chalumbin 275kV Transmission Line Refit Project Pack - Project Scope Report CP.02750 BS1220 Ross to Chalumbin Life Extension p3	Map/location information	Capex	Information affecting the security of the network	The information identifies the location of transmission network assets.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Ross to Chalumbin 275kV Transmission Line Refit Project Pack - Concept Estimate for CP.02750 - BS1220 Ross to Chalumbin Life Extension p1	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Ross to Chalumbin 275kV Transmission Line Refit Project Pack - Concept Estimate for CP.02750 - BS1220 Ross to Chalumbin Life Extension P3, 8	Project cost information	Capex	Market sensitive cost inputs	The cost information may affect Powerlink's ability to secure competitive price outcomes in future procurement activities.	The information would be interpreted by potential suppliers as an indication of Powerlink's willingness to pay for the provision of equipment and services.	Publication of forecast unit costs will compromise Powerlink's ability to deliver projects at the lowest possible costs which is against customers' interests.
Ross to Chalumbin 275kV Transmission Line Refit Project Pack - Concept Estimate for CP.02750 - BS1220 Ross to Chalumbin Life Extension p5	Map/location information	Capex	Information affecting the security of the network	The information identifies the location of transmission network assets.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.

Title, page and paragraph number of document containing the confidential information	Description of the confidential information.	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
Broadsound Bus Reactor Project Pack - Project Scope Report CP.02765 H020 Broadsound 275kV Bus Reactor p1, 2, 5	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Broadsound Bus Reactor Project Pack - Project Scope Report CP.02765 H020 Broadsound 275kV Bus Reactor p6	Substation operating/layout diagram	Capex	Information affecting the security of the network	The information identifies specific circuit switching arrangements.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Broadsound Bus Reactor Project Pack - CP.02765 H020 Broadsound 275kV Bus Reactor Project Management Plan p1	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Broadsound Bus Reactor Project Pack - CP.02765 H020 Broadsound 275kV Bus Reactor Project Management Plan p6	Substation operating/layout diagram	Capex	Information affecting the security of the network	The information identifies specific circuit switching arrangements.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Broadsound Bus Reactor Project Pack - CP.02765 H020 Broadsound 275kV Bus Reactor Project Management Plan p7, 9	Project cost information	Capex	Market sensitive cost inputs	The cost information may affect Powerlink's ability to secure competitive price outcomes in future procurement activities.	The information would be interpreted by potential suppliers as an indication of Powerlink's willingness to pay for the provision of equipment and services.	Publication of forecast unit costs will compromise Powerlink's ability to deliver projects at the lowest possible costs which is against customers' interests.
Calvale Selective Primary Plant Replacement Project Pack - Site Condition Assessment Report H024 Calvale p1	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Calvale Selective Primary Plant Replacement Project Pack - Site Condition Assessment Report H024 Calvale p5, 6	Substation operating/layout diagram	Capex	Information affecting the security of the network	The information identifies specific circuit switching arrangements.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Calvale Selective Primary Plant Replacement Project Pack - Site Condition Assessment Report H024 Calvale p7	Map/location information	Capex	Information affecting the security of the network	The information identifies the location of transmission network assets.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Calvale Selective Primary Plant Replacement Project Pack - Project Scope Report - CP.xxxxx H024 Calvale Substation Selective Replacement of Primary Plant p1, 2, 6	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Calvale Selective Primary Plant Replacement Project Pack - Project Scope Report - CP.xxxxx H024 Calvale Substation Selective Replacement of Primary Plant p3	Substation operating/layout diagram	Capex	Information affecting the security of the network	The information identifies specific circuit switching arrangements.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.

Title, page and paragraph number of document containing the confidential information	Description of the confidential information.	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
Calvale Selective Primary Plant Replacement Project Pack - Project Scope Report - CP.xxxxx H024 Calvale Substation Selective Replacement of Primary Plant p4	Non-regulated customer connection arrangements	Capex	Personal information	Information can identify the specific connection equipment for non-regulated customers	Powerlink is prevented from disclosing details of non-regulated connections.	There is no public benefit to disclose this information as it relates to an individual non-regulated customer
Calvale Selective Primary Plant Replacement Project Pack - Concept Estimate for CP.xxxxx - H024 Calvale Substation Selective Replacement of Primary Plant p1	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Calvale Selective Primary Plant Replacement Project Pack - Concept Estimate for CP.xxxxx - H024 Calvale Substation Selective Replacement of Primary Plant p4, 10	Project cost information	Capex	Market sensitive cost inputs	The cost information may affect Powerlink's ability to secure competitive price outcomes in future procurement activities.	The information would be interpreted by potential suppliers as an indication of Powerlink's willingness to pay for the provision of equipment and services.	Publication of forecast unit costs will compromise Powerlink's ability to deliver projects at the lowest possible costs which is against customers' interests.
Calvale Selective Primary Plant Replacement Project Pack - Concept Estimate for CP.xxxxx - H024 Calvale Substation Selective Replacement of Primary Plant p6	Substation operating/layout diagram	Capex	Information affecting the security of the network	The information identifies specific circuit switching arrangements.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Calvale Selective Primary Plant Replacement Project Pack - Concept Estimate for CP.xxxxx - H024 Calvale Substation Selective Replacement of Primary Plant p7	Non-regulated customer connection arrangements	Capex	Personal information	Information can identify the specific connection equipment for non-regulated customers	Powerlink is prevented from disclosing details of non-regulated connections.	There is no public benefit to disclose this information as it relates to an individual non-regulated customer
Lilyvale Transformers 3 and 4 Replacement Project Pack - 1. Transformers Condition Assessment H015 Lilyvale Substation p1	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.

Calliope River to Wurdong Tee 275kV Transmission Line Rebuild Project Pack - Transmission Line Condition Assessment - Report Built Section 1122 Calliope River to Gin Gin 275kV p5	Map/location information	Capex	Information affecting the security of the network	The information identifies the location of transmission network assets.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Calliope River to Wurdong Tee 275kV Transmission Line Rebuild Project Pack - CP.02778 Calliope River to Wurdong tee 275kV DCST Transmission Line Rebuild (813/1 and 814/1) - Planning Statement p3	Map/location information	Capex	Information affecting the security of the network	The information identifies the location of transmission network assets.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.

Title, page and paragraph number of document containing the confidential information	Description of the confidential information.	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
Calliope River to Wurdong Tee 275kV Transmission Line Rebuild Project Pack - CP.02778 Calliope River to Wurdong tee 275kV DCST Transmission Line Rebuild (813/1 and 814/1) - Planning Statement p4, 5	Network diagram	Capex	Information affecting the security of the network	The information identifies specific circuit switching and connection arrangements.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Calliope River to Wurdong Tee 275kV Transmission Line Rebuild Project Pack - Base Case Risk and Maintenance Costs Summary Report CP.02778 BS1122/1123 Calliope River - Wurdong Tee Rebuild p2, 3	Map/location information	Capex	Information affecting the security of the network	The information identifies the location of transmission network assets.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Calliope River to Wurdong Tee 275kV Transmission Line Rebuild Project Pack - Project Scope Report CP.02778 BS1122/1123 Calliope River to Wurdong Tee Transmission Line Rebuild p1, 2, 5	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Calliope River to Wurdong Tee 275kV Transmission Line Rebuild Project Pack - Project Scope Report CP.02778 BS1122/1123 Calliope River to Wurdong Tee Transmission Line Rebuild p3	Map/location information	Capex	Information affecting the security of the network	The information identifies the location of transmission network assets.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Calliope River to Wurdong Tee 275kV Transmission Line Rebuild Project Pack - Concept Estimate for CP.02778 - BS1122/1123 Calliope River to Wurdong Tee Transmission Line Rebuild p1	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Calliope River to Wurdong Tee 275kV Transmission Line Rebuild Project Pack - Concept Estimate for CP.02778 - BS1122/1123 Calliope River to Wurdong Tee Transmission Line Rebuild p3	Map/location information	Capex	Information affecting the security of the network	The information identifies the location of transmission network assets.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Calliope River to Wurdong Tee 275kV Transmission Line Rebuild Project Pack - Concept Estimate for CP.02778 - BS1122/1123 Calliope River to Wurdong Tee Transmission Line Rebuild p4, 8	Project cost information	Capex	Market sensitive cost inputs	The cost information may affect Powerlink's ability to secure competitive price outcomes in future procurement activities.	The information would be interpreted by potential suppliers as an indication of Powerlink's willingness to pay for the provision of equipment and services.	Publication of forecast unit costs will compromise Powerlink's ability to deliver projects at the lowest possible costs which is against customers' interests.
Calliope River to Larcom Creek 275kV Transmission Line Refit Project Pack - Transmission Line Condition Assessment – Report BS1515 Mt Miller (STR-0012) to Larcom Ck 275kV p1	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.

Telecommunication Network Consolidation Project Pack - Project Scope Report CP.02813 Telecommunications and Digital Network Consolidation Stage 4 p1, 2, 7	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Telecommunication Network Consolidation Project Pack - Project Scope Report CP.02813 Telecommunications and Digital Network Consolidation Stage 4 p2	Make / model of equipment / software	Capex	Information affecting the security of the network	The information identifies specific makes / models or communications systems that could be targeted by hackers.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Telecommunication Network Consolidation Project Pack - Project Scope Report CP.02813 Telecommunications and Digital Network Consolidation Stage 4 p3	Telecoms network diagram	Capex	Information affecting the security of the network	The information identifies specific network architecture including potential access points that could be targeted by hackers.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Telecommunication Network Consolidation Project Pack - Concept Estimate for CP.02813 - Telecoms and Digital Network Consolidation Stage 4 p1	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Telecommunication Network Consolidation Project Pack - Concept Estimate for CP.02813 - Telecoms and Digital Network Consolidation Stage 4 p3, 4	Make / model of equipment / software	Capex	Information affecting the security of the network	The information identifies specific makes / models or communications systems that could be targeted by hackers.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Telecommunication Network Consolidation Project Pack - Concept Estimate for CP.02813 - Telecoms and Digital Network Consolidation Stage 4 p5	Telecoms network diagram	Capex	Information affecting the security of the network	The information identifies specific network architecture including potential access points that could be targeted by hackers.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Telecommunication Network Consolidation Project Pack - Concept Estimate for CP.02813 - Telecoms and Digital Network Consolidation Stage 4 p4, 8	Project cost information	Capex	Market sensitive cost inputs	The cost information may affect Powerlink's ability to secure competitive price outcomes in future procurement activities.	The information would be interpreted by potential suppliers as an indication of Powerlink's willingness to pay for the provision of equipment and services.	Publication of forecast unit costs will compromise Powerlink's ability to deliver projects at the lowest possible costs which is against customers' interests.
Woree to Kamerunga 132kV Transmission Line Rebuild Project Pack - Transmission Line Condition Assessment - Report BS1252 Kamerunga to Woree p1	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Woree to Kamerunga 132kV Transmission Line Rebuild Project Pack - Transmission Line Condition Assessment - Report BS1252 Kamerunga to Woree p6, 8, 23	Map/location information	Capex	Information affecting the security of the network	The information identifies the location of transmission network assets.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.

Title, page and paragraph number of document containing the confidential information	Description of the confidential information.	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
Woree to Kamerunga 132kV Transmission Line Rebuild Project Pack - CP.xxxxx Woree – Kamerunga 132kV Transmission Line Rebuild – Planning Statement p4	Map/location information	Capex	Information affecting the security of the network	The information identifies the location of transmission network assets.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Woree to Kamerunga 132kV Transmission Line Rebuild Project Pack - Base Case Risk and Maintenance Costs Summary Report - CP.xxxxx Woree-Kamerunga 132kV Transmission Line Rebuild p2	Map/location information	Capex	Information affecting the security of the network	The information identifies the location of transmission network assets.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Woree to Kamerunga 132kV Transmission Line Rebuild Project Pack - Project Scope Report CP.xxxxx Woree to Kamerunga 132kV Transmission Line Rebuild p1, 2, 5, 6	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Woree to Kamerunga 132kV Transmission Line Rebuild Project Pack - Project Scope Report CP.xxxxx Woree to Kamerunga 132kV Transmission Line Rebuild p3	Information relating to future land and easement requirements	Capex	Strategic information	Discusses alternative network redevelopment options that have differing land and easement requirements which impact differing sections of the community.	Publishing the information could result in local community action to pursue options that benefit that community at the expense of consumers more generally.	Publishing this information could increase costs and therefore prices for consumers generally.
Woree to Kamerunga 132kV Transmission Line Rebuild Project Pack - Concept Estimate for CP.xxxxx - Woree to Kamerunga 132kV Transmission Line Rebuild p1	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Woree to Kamerunga 132kV Transmission Line Rebuild Project Pack - Concept Estimate for CP.xxxxx - Woree to Kamerunga 132kV Transmission Line Rebuild p3	Map/location information	Capex	Information affecting the security of the network	The information identifies the location of transmission network assets.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Woree to Kamerunga 132kV Transmission Line Rebuild Project Pack - Concept Estimate for CP.xxxxx - Woree to Kamerunga 132kV Transmission Line Rebuild p4, 7	Project cost information	Capex	Market sensitive cost inputs	The cost information may affect Powerlink's ability to secure competitive price outcomes in future procurement activities.	The information would be interpreted by potential suppliers as an indication of Powerlink's willingness to pay for the provision of equipment and services.	Publication of forecast unit costs will compromise Powerlink's ability to deliver projects at the lowest possible costs which is against customers' interests.
Molendinar Secondary Systems Replacement Project Pack - Secondary Systems Condition Assessment Report - H031 Molendinar 275kV / 110kV Substation p1	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.

Title, page and paragraph number of document containing the confidential information	Description of the confidential information.	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
Molendinar Secondary Systems Replacement Project Pack - Secondary Systems Condition Assessment Report - H031 Molendinar 275kV / 110kV Substation p5	Substation operating/layout diagram	Capex	Information affecting the security of the network	The information identifies specific circuit switching arrangements.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Molendinar Secondary Systems Replacement Project Pack - Secondary Systems Condition Assessment Report - H031 Molendinar 275kV / 110kV Substation p27	Make / model of equipment / software	Capex	Information affecting the security of the network	The information identifies specific makes / models or communications systems that could be targeted by hackers.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.

Publication of forecast unit costs will compromise Powerlink's ability to deliver projects at the lowest possible costs which is against customers' interests.
Preliminary Investment Case - IT01 Supply Chain and Works Management p3, 14, 22, 23	Project cost information	Capex	Market sensitive cost inputs	The cost information may affect Powerlink's ability to secure competitive price outcomes in future procurement activities.	The information would be interpreted by potential suppliers as an indication of Powerlink's willingness to pay for the provision of equipment and services.	Publication of forecast unit costs will compromise Powerlink's ability to deliver projects at the lowest possible costs which is against customers' interests.
Preliminary Investment Case - IT02 Payroll Renewal p2, 13, 21, 22	Project cost information	Capex	Market sensitive cost inputs	The cost information may affect Powerlink's ability to secure competitive price outcomes in future procurement activities.	The information would be interpreted by potential suppliers as an indication of Powerlink's willingness to pay for the provision of equipment and services.	Publication of forecast unit costs will compromise Powerlink's ability to deliver projects at the lowest possible costs which is against customers' interests.
Preliminary Investment Case - IT03 Network Design Management p3, 15, 23, 24	Project cost information	Capex	Market sensitive cost inputs	The cost information may affect Powerlink's ability to secure competitive price outcomes in future procurement activities.	The information would be interpreted by potential suppliers as an indication of Powerlink's willingness to pay for the provision of equipment and services.	Publication of forecast unit costs will compromise Powerlink's ability to deliver projects at the lowest possible costs which is against customers' interests.
Preliminary Investment Case - IT03 Network Design Management p5	Make / model of equipment / software	Capex	Information affecting the security of the network	The information identifies specific software systems that could be targeted by hackers.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Preliminary Investment Case - IT04 Information, Analytics and Insights p3, 12, 19, 20	Project cost information	Capex	Market sensitive cost inputs	The cost information may affect Powerlink's ability to secure competitive price outcomes in future procurement activities.	The information would be interpreted by potential suppliers as an indication of Powerlink's willingness to pay for the provision of equipment and services.	Publication of forecast unit costs will compromise Powerlink's ability to deliver projects at the lowest possible costs which is against customers' interests.
Preliminary Investment Case - IT05 Stakeholder and Document Management p3, 14, 21, 22	Project cost information	Capex	Market sensitive cost inputs	The cost information may affect Powerlink's ability to secure competitive price outcomes in future procurement activities.	The information would be interpreted by potential suppliers as an indication of Powerlink's willingness to pay for the provision of equipment and services.	Publication of forecast unit costs will compromise Powerlink's ability to deliver projects at the lowest possible costs which is against customers' interests.
Preliminary Investment Case - IT06 technology Applications Sustainability p2, 13, 18, 19	Project cost information	Capex	Market sensitive cost inputs	The cost information may affect Powerlink's ability to secure competitive price outcomes in future procurement activities.	The information would be interpreted by potential suppliers as an indication of Powerlink's willingness to pay for the provision of equipment and services.	Publication of forecast unit costs will compromise Powerlink's ability to deliver projects at the lowest possible costs which is against customers' interests.
Preliminary Investment Case - IT07 Cybersecurity Maturity p3, 15, 27, 28	Project cost information	Capex	Market sensitive cost inputs	The cost information may affect Powerlink's ability to secure competitive price outcomes in future procurement activities.	The information would be interpreted by potential suppliers as an indication of Powerlink's willingness to pay for the provision of equipment and services.	Publication of forecast unit costs will compromise Powerlink's ability to deliver projects at the lowest possible costs which is against customers' interests.

Title, page and paragraph number of document containing the confidential information	Description of the confidential information.	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
Preliminary Investment Case - IT07 Cybersecurity Maturity p4, 5, 7	Cybersecurity practices	Capex	Information affecting the security of the network	The information identifies Powerlink's current cybersecurity practices and maturity levels.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Powerlink - Asset Management - Framework p1	Staff names	AM Framework	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Replex Forecast Model 2020 Profile, Asset Data sheet, Column F (Unit Cost), Result_Output sheet	Cost related information	Capex	Market sensitive cost inputs	The cost information may affect Powerlink's ability to secure competitive price outcomes in future procurement activities.	The information would be interpreted by potential suppliers as an indication of Powerlink's willingness to pay for the provision of equipment and services.	Publication of forecast unit costs will compromise Powerlink's ability to deliver projects at the lowest possible costs which is against consumers interests.
Capex Model - Sheet RIN 2.2.1, columns D - J (part), Sheet Total by Projects, Sheet RIN_Equip	Cost related information	Capex	Market sensitive cost inputs	The cost information may affect Powerlink's ability to secure competitive price outcomes in future procurement activities.	The information would be interpreted by potential suppliers as an indication of Powerlink's willingness to pay for the provision of equipment and services.	Publication of forecast total costs, together with quantities of equipment allows a forecast unit rate to be derived. This will compromise Powerlink's ability to deliver projects at the lowest possible costs which is against consumers interests.
Powerlink - Asset Management Plan 2021 - Volume 1 (Overview) Cover page	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Powerlink - Asset Management Plan 2021 - Volume 2 (Investment Outlook) Cover page	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Powerlink - Asset Management Plan 2021 - Volume 3 (Area Plans) Cover page	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Powerlink - Asset Management Plan 2021 - Volume 3 (Area Plans) p8	Network diagram	Capex	Information affecting the security of the network	The information identifies the location of transmission network assets.	The information could be used by individuals / groups looking to disrupt electricity supplies.	Powerlink's network is designated as critical national infrastructure by the Commonwealth Attorney Generals Department. There is no public benefit from compromising security of the network.
Powerlink - Asset Management Strategy p1	Staff names	AM Framework	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Powerlink - Asset Planning Criteria Framework P1	Staff names	AM Framework	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Powerlink - Asset Risk Management Framework p1	Staff names	AM Framework	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Powerlink - Digital Asset Management Framework p1	Staff names	AM Framework	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.

Title, page and paragraph number of document containing the confidential information	Description of the confidential information.	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
Powerlink - Joint Planning Framework p1	Staff names	AM Framework	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Powerlink - Regulated Network Capital Investment Approval Guideline p1	Staff names	Capex	Personal information	Information identifies specific employees.	Employees may be directly and improperly approached by external parties.	There is no public benefit in disclosure of this information as the names of the employees are not relevant.
Powerlink 2023-27 - RIN - Workbook 1 - Forecast Template 5.4, Table 5.4.1	Maximum demand information for individual customers	Demand	Personal information	Forecast demand information reveals information on the planned future state of the internal business workings of the individual user. It can reveal information about that user to the users' competitors that isn't otherwise available in the public domain.	An industrial users' competitors can use forecast demand information to discern information on the users production plans, throughput, efficiency etc. This information is personal and other information that could harm the users' position in the markets in which they compete.	Individual consumers should be entitled to have their consumptions forecasts remain private. They are entitled to reveal them, at their choice, if they see it as being to their advantage – e.g. seeking competitively priced electricity services. It should not automatically be revealed as part of a regulatory process.
Powerlink 2023-27 - RIN - Workbook 8 - Capex historical Template 8.2, Table 8.2.7	Commercial in confidence information	Capex	Market sensitive cost inputs	Detailed annual tax returns are not public knowledge by taxpayers	Disclosing information in the template could result in readers misinterpreting the position of expensing these items	Nil public benefit and risk of public misinterpretation of information
Powerlink 2023-27 - RIN - Workbook 1 - Forecast Template 2.2, Table 2.2.1	Cost related information	Capex	Market sensitive cost inputs	The cost information may affect Powerlink's ability to secure competitive price outcomes in future procurement activities.	The information would be interpreted by potential suppliers as an indication of Powerlink's willingness to pay for the provision of equipment and services.	Publication of forecast total costs, together with quantities of equipment allows a forecast unit rate to be derived. This will compromise Powerlink's ability to deliver projects at the lowest possible costs which is against consumers interests.
Powerlink 2023-27 - RIN - Workbook 1 - Forecast Template 2.10, Tables 2.10.1 and 2.10.2	Negotiated and Unregulated Overheads Expenditure	Opex	Market intelligence	The information identifies operational costs for negotiated and unregulated activities	The information could be used to advantage competitors for negotiated and unregulated activities.	There is no public benefit in disclosure of this information. Disclosure may impact Powerlink's ability to obtain future negotiated and unregulated business.

Proportion of Confidential Material

Submission Title	Number of pages of submission that include information subject to a claim of confidentiality	Number of pages of submission that do not include information subject to a claim of confidentiality	Total number of pages of submission	Percentage of pages of submission that include information subject to a claim of confidentiality	Percentage of pages of submission that do not include information subject to a claim of confidentiality
2023-27 Powerlink Queensland Revenue Proposal (including Cover Letter, Overview, Cost Allocation Methodology and Confidentiality Register)	0	267	267	0%	100%
Revenue Proposal Appendices	52	971	1023	5%	95%
Regulatory Information Notice	9	498	507	2%	98%
Revenue Proposal Models	5	236	241	2%	98%
Revenue Proposal Supporting Information	589	2754	3343	18%	82%
Total	655	4726	5381	12%	88%

Note: This notice is an approximate indication of the proportion and comparative proportion of material in Powerlink's 2023-27 Revenue Proposal that is subject to a claim of confidentiality compared to that which is not.
