

Dear Sarah,

We wish to show our interests in submitting a submission to vote in favour of Blue Aurora Pty Ltd being granted an individual exemption from the requirement to hold a retailer authorisation under the National Energy Retail Law to sell energy @ Cairns Beach Resort.

We have been a unit holder for the past 6 years and have been very happy with the way both sets of caretakers have reported on Electricity supply through our monthly statement and further reports in the monthly newsletter. The electricity supply has been in place since we purchased our Unit and we find no need to change something that is working well. We are in favour of the Caretakers application to Australian Energy Regulator.

Electricity usage is divided into common and individual unit usage. In the years we have owned our unit we have found this billing to be fair and consistent with the cost of power remaining stable in relation to the time of year.

We would be very disappointed to see a collapse of the running of Cairns Beach Resort, due to this issue not being resolved. We are more than happy for Australian Energy Regulator to supply Blue Aurora Pty Ltd with our submission in favour of the proposed application.

Yours sincerely

Mark & Tracy HOLMES
Unit █
