The Australian Energy Regulator

Reg. Blue Aurora Pty Ltd - Application for an individual exemption

We would like to vote in favour to the proposed application and would like BLUE AURORA Pty Ltd to be granted an individual exemption to hold a retailer authorization under the National Energy Retail Law to continue to sell energy at Cairns Beach Resort.

Explanation:

We own unit ■ at Cairns Beach Resort, Oleander St, Holloways Beach Cairns, for over 5 years, and we are very satisfied with all our energy needs under BLUE AURORA Pty Ltd and the way the billing system is being handled and power is divided for all the units to be fair and equal.

I am to understand that BLUE AURORA Pty Ltd has negotiated a better cost for all units for electricity from this supplier which will be passed on to all owners in the near future.

We will all benefit from this solution.

I see no reason to change things as they are now.

Regards,
