

31 March 2023

Mr Warwick Anderson  
General Manager Pricing  
Australian Energy Regulator  
GPO Box 520  
Melbourne VIC 3001

Dear Warwick

### RE TasNetworks' Annual Pricing Proposal

TasNetworks is pleased to provide the 2023-24 Annual Distribution Pricing Proposal (**Proposal**) to the Australian Energy Regulator (**AER**). We advise that the Proposal complies with the AER's 2019-24 Final Determination for TasNetworks.

This Proposal has been prepared in accordance with the structures set out in TasNetworks' 2019-24 Tariff Structure Statement (**TSS**) and adheres to the requirements of Chapter 6 of the National Energy Rules (**NER**).

We estimate that network charges for most residential and small business customers will increase by around 3.7 per cent in 2023-24, mostly driven by inflation. We also advise that our Long Run Marginal Cost (**LRMC**) estimates for 2023-24 have been prepared consistently with those that underpinned our 2022-23 Proposal and our 2019-24 TSS.

The table below contains a list of the required documents that support this Proposal:

Attachment	Description
	TasNetworks - 2023-24 Annual Distribution Pricing Proposal
	TasNetworks - 2023-24 Annual SCS pricing model – [31-03-2023]
	TasNetworks - 2023-24 Annual ACS pricing model – [31-03-2023]
01	TasNetworks - Network tariff application and price guide for 2023-24
02	TasNetworks - Indicative network tariff pricing schedule for SCS 2023-24
