

17th April 2018

Mr Slavko Jovanoski
Assistant Director
Australian Energy Regulator
Level 20
175 Pitt Street
Sydney NSW 2000

Dear Slavko

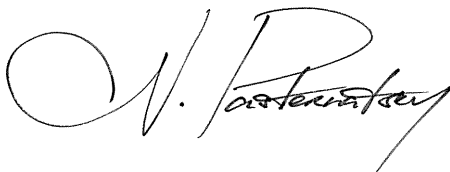

**PROPOSAL FOR THE REMITTAL OF THE ENDEAVOUR ENERGY 2014 – 2019
DETERMINATION**

WSROC views the finalised Remittal Proposal from Endeavour Energy as a positive response to addressing the outstanding regulatory issues pertaining to the 2014 – 2019 Determination. Notwithstanding the need to have a safe & reliable network; investing for customer & economic growth, and enabling customers' choices, the issue of affordability and a degree of certainty are vital concerns to WSROC.

This proposal attempts to address these concerns and if accepted by the AER will provide some certainty to customers with respect to current and future prices.

If further clarification is required, please feel free to contact me at any time.

Regards,

Nic Pasternatsky
Procurement Manager
